BIG CROWD COMING.

Present indications are that the special train from Indianapolis bringing friends from that city to attend the consecration of Bishop Alerding on Friday will carry an immense crowd of people, as the railroad company has been asked to arrange to handle a crowd of 2,000. The train will arrive over the Lake Erie and Western at 7 o'clock Thursday evening. Preparations for the consecration are being completed as rapidly as possible and the committee have been notified of the attendance of three additional bishops—Bishop Els, of Marquette, Wis.; Bishop Maes, of Covington, Ky., and Bishop Jansen, of Belleville, Ill.

Members of the Shakespeare club were entertained at dinner last evening by Mrs. Herbert Shorey.

KNOWS NO DISTINCTION.

Rich and Poor Alike Suffer From Catarrh in This Climate.

All observant physicians have noticed the enormous increase in catarrhal diseases in recent years, and the most liberal and enlightened have cheerfully given their approval to the new internal remedy, Stuart's Catarrh Tablets, as the most successful and by far the safest remedy for catarrh yet produced.

One well known catarrh specialist, as soon as he had made a thorough test of this preparation, discarded inhalers, washes and sprays and now depends entirely upon Stuart's Catarrh Tablets in treating catarrh, whether in the head, throat or stomach.

Dr. Ridsell says "in patients who had lost the sense of smell entirely and even where the hearing has begun to be affected from catarrh I have had fine results after only a few weeks' use of Stuart's Catarrh Tablets. I can only explain their action on the theory that the cleansing and anti-septic properties of the tablets destroy the catarrhal germs wherever found because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says Stuart's Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucus and speedily overcoming the hawking, coughing and expectorating.

Any sufferer from catarrh will find Stuart's Catarrh Tablets will give immediate relief, and being in tablet form and pleasant to the taste are convenient and always ready for use as they can be carried in the pocket and used at any time as they contain no poisonous drugs, but only the cleansing antiseptic properties of Eucalyptus bark, Guaiacol, blood root and Hydrastin.

All druggists sell the tablets at 50 cents for complete treatment.

RYAN-YOUNG NUPTIALS.

Miss M. Amber Ryan and August F. Young, both of this city, were united in marriage Thursday afternoon at 4 o'clock, the ceremony being performed at the Episcopal residence, Rev. Father P. J. O'Reilly officiating. The attendants were Louis Young and Miss Catherine Ryan, brother and sister to the bride and groom, and a large company of friends of the young couple were present to extend congratulations. In the evening an enjoyable reception was held at the home of the bride's mother, Mrs. Matilda Ryan, of West Main street. Both bride and groom are very popular, and a host of friends will extend them best wishes. Mr. Young is employed at the Bass foundry.

WLL MEET TONIGHT.

The regular meeting of the Allen County Medical society will be held this evening in the assembly room of the court house. Papers will be read by Dr. Greenwell, of Huntertown, on "Neuralgia," and by Dr. G. W. McCaskey. The society will meet in the court house until more suitable quarters are secured.

EDITOR SEES WONDERS.

Editor W. V. Barry, of Lexington, Tenn., in exploring Mammoth Cave, contracted a severe case of Piles. His quick cure through using Bucklen's Arnica Salve convinced him it is another world's wonder. Cures Piles, Injuries, Inflammation, and all Bodily Eruptions. Only 25c at Dreier Bros.

Real Indian chiefs, who do not require grease paint, rouge or wigs to give them nature's color, are used in the new melodrama, "War on Women," that will be at the Masonic Temple tonight. They are not Bowery "fakirs," but the real red men of the prairies, representing several prominent tribes, like the Sioux and Apaches. Among these chiefs are Rain-in-the-Face, Hawkeye, Mohawk, Black Cloud, Geronimo, Short Hair and a young squaw, Red Bird.

Geronimo is in love with the heroine, the niece of Gen. Prescott, commanding the post near the scene of the Indian trouble. Hope Booth, a charming soubrette, appears in this character. She is the stellar factor in the play—as Annie Pixley was in "M'liss" and Lotta in her successes.

Miss Booth has achieved a double triumph in this play—as the heroine and as an artist's model.

The sale at the Anderson Tea Store Wednesday, all day, for the benefit of the Allen County Orphans' Home, will consist of sliced boiled ham, roast turkeys, salads, salad dressing, pies, cakes, bread, buns and biscuits. 26-2t

The Marriage Problem

"How to be happy though married," has been entirely solved to the satisfaction of hundreds of thousands of women. There can be no happiness without health. The general health of woman is dependent on the local health of the delicate womanly organs. When there are debilitating drains, or inflammation, ulceration or female weakness, happiness in marriage is practically impossible. A host of happy wives testify that the secret of happiness in marriage is found in the use of Dr. Pierce's Favorite Prescription. It dries the drains, heals ulceration and inflammation and cures female weakness. It makes weak women strong, sick women well.

Mrs. Anna Willy, (Michigan House), Northville, Shiawassee Co., S. Dak., writes: "I am enjoying good health, thanks to your kind advice and valuable remedies. I suffered very much with female weakness and other ailments for more than two years, when I wrote to you for advice. After carefully following your advice and taking six bottles each of Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' I am now a well and happy women."

Women are invited to consult Dr. Pierce by letter, free. Correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

A JUDGE ACCUSES

ELKHART MAGISTRATES AFTER VIOLATORS OF LAW.

WAGES WAR ON SALOON MEN

SAYS GAMBLER OFFERED HIM BRIBE FOR PROTECTION.

PERU MYSTERY IS UNSOLVED

GENERAL NEWS OF THE STATE OF INDIANA.

Goshen, Ind., Nov. 27.—According to rumor irregularities in city affairs have been uncovered in Elkhart. City Judge Blake has filed three affidavits, two against W. H. Grapes and one against W. P. Erity, for alleged infractions of liquor laws Sunday. The cases are set for trial Tuesday morning and startling developments are expected at the trial. Judge Blake claims he inquired of Chief of Police Braden to learn if that officer was aware of the violations of the Nicholson law which, it is alleged, occur in Elkhart daily. Braden, it is said, admitted that he had heard of violations of the law and would act on the matter if Deputy Prosecutor Frank would instruct him. When consulted Frank manifested a willingness to prosecute the cases as soon as affidavits were filed. Braden, it is claimed, then said he would file affidavits as soon as he got ready. This, it is said, angered Judge Blake, who took the matter into his own hands. Blake says he was approached by gamblers a few days ago, who sought to bribe him, and since the police have refused to act in the matter he says he will remain quiet no longer. Sensational evidence is expected to come up when the cases are called for trial.

NO DEVELOPMENTS.

Peru, Ind., Nov. 27.—Yesterday's investigation by the coroner threw no light on the mystery surrounding the death of Patrick and Jerry Holland, whose bodies were found in their house here a few days ago. The belief is strongly held, however, that their death was due to narcotic poisoning, and that the poison was administered before they entered the house. The uncooked food on the table had only been partially unwrapped, preparatory for a meal. The idea of suicide gains no credence, as there was absolutely nothing in the lives of the brothers indicating that they would seek death. If they are the victims of foul play the coroner thinks that enmity, and not robbery, was the inciting cause.

Jerry Holland was sixty-two years old and his brother fifty-six. They had kept house together for many years, and they were broad-shouldered, hearty, rugged men, and had many friends. Patrick, while the lightest in purse, was the livelier of the two, while Jerry, more taciturn, but sociable, owned a number of houses, with ready cash in bank. Their one great fault was their love for strong drink. Recently both had been drinking to excess.

THE BIDDLE ESTATE SUIT.

Logansport, Ind., Nov. 27.—The plaintiff in the case of C. S. Peckham, administrator of the estate of Anna M. Biddle, against Eva Peter Reynolds and others, for possession of the property of the late Judge Horace P. Biddle, has been granted permission to inspect the late judge's famous home on Biddle island, so that the hearing may be commenced on Friday with a fair understanding on both sides. The library is the most valuable asset. The plaintiff is suing for the widow's third in the realty disposed of during Judge Biddle's lifetime. The defense maintains that he never owned real estate in his own name. It is said, however, that Biddle's island belonged to him, but was recorded in another man's name for fifty years, in order to prevent Mrs. Biddle from inheriting a third interest. Mrs. Biddle survived her husband only long enough to institute the suit. If the plaintiff wins, what remains of the estate will go to Mrs. Biddle's distant cousins.

BOTH ARMS AND LEGS OFF.

South Bend, Ind., Nov. 27.—Otto Robinson, a farmer, of Lakeville, fell under the cars and had both arms and legs cut off, causing death.

A CHILD WIFE DIVORCED.

Washington, Ind., Nov. 27.—Etta Hill, the child-wife of James Hill, of Edwardsport, has been granted a divorce. She is but 14 years old, diminutive in stature, and very girlish in appearance. Her ex-husband is 20. It was in evidence that Franklin Hill, father of James Hill, procured the license, representing [illegible] purported to be a letter written by Mrs. John W. Lawhead, mother of the girl, consenting to the marriage. Mrs. Lawhead denounced the letter as a forgery. Squire Ruby officiated at the wedding, two days after which the bride returned to her mother, saying she had been imposed upon.

AN UNUSUAL COMPACT.

Laporte, Ind., Nov. 27.—William and Charles Rosenbaum have been licensed to wed Josephine and Amelia Rosenbaum. There is no kinship ties between the contracting couples. The brothers first entered into a written compact to wed the two sisters bearing their last name, or remain single for life, and they began their courtship at the same time, the choice of sisters being determined by lot. They proposed and were accepted at the same time, and the marriage will be a double ceremony. They will live close neighbors.

A GOLDEN AND SILVER EVENT.

Wabash, Ind., Nov. 27.—Mr. and Mrs. Thomas Charles have celebrated their golden wedding at the home of their son-in-law and daughter, Mr. and Mrs. L. W. Fowler, who, at the same time, duly observed the twenty-fifth anniversary of their marriage. Mr. and Mrs. Charles are 72 and 69 years old, respectively. Both have spent fifty years in Wabash.

SHOT BY HIS DOG.

Delphi, Ind., Nov. 27.—While Edward Oles was hunting quail, accompanied by his favorite dog, he started to climb a fence, first carefully setting his gun at full cock, in position. His dog attempted to jump the fence at the same time, but tripped, and its toe struck the trigger, discharging the weapon. The dog lost a leg, and the owner had a thumb shot off.

ENGINEER FATALLY BURNED.

Elkhart, Ind., Nov. 27.—Samuel Long, a Lake Shore railway engineer, was fatally burned here yesterday. He came off his run and prepared to build a fire in his stove, and he poured gasoline over the wood, thinking it was kerosene. The explosion set fire to the building. Long's clothes caught fire, but he wrapped himself in a blanket. Chunks of flesh fell from his face and hands.

HE HAD SOME STOLEN GOODS

JAMES E. GAYLORD, A JUNK DEALER, IN TROUBLE.

Held to the Circuit Court in Bonds of $500—Four Juvenile Offenders.

In the mayor's court this morning James E. Gaylord was held to the circuit court under bonds of $500 to answer to the charge of receiving stolen goods. Gaylord has not yet been able to furnish the bond, and is still in jail.

Gaylord's arest by Detective Coling followed close upon the nabbing of four boys upon a charge of petit larceny. The lads were John Weber, William Reber, James Mulharen and Frank Merz, and their ages range from 14 to 16 years. Two weeks ago some copper pipe was stolen from the Wabash railway, and the work of Detective Coling traced its disappearance to two young hoboes who were strangers in the city, and who have since skipped out. Mixed up in the affair, it is claimed, were the four lads named above, two of whom appear to have stood guard and the others to have sold it to Gaylord for junk, after cutting it into several pieces. Before it was mutilated the pipe was worth about $65 to the railroad company, and the lads received $2.48 from the junk dealer. Each of the boys were placed under bonds of $200, and Merz and Mulharen were released upon their own recognizance to answer to the circuit court.

Gaylord who purchased the stuff from the boys, claims that he did not know it had been stolen. The officers are inclined to the opinion, however, that too many junk dealers lack scruples in this regard, and the fact that a ready market is found for plunder of this character is responsible for many of the thefts which are committed.

SIX FRIGHTFUL FAILURES.

Six terrible failures of six different doctors nearly sent Wm. H. Mullen, of Lockland, O., to an early grave. All said he had a fatal lung trouble and that he must soon die. But he was urged to try Dr. King's New Discovery for Consumption. After taking five bottles he was entirely cured. It is positively guaranteed to cure all diseases of Throat, Chest and Lungs, including Coughs, Colds, La Grippe, Pneumonia, Bronchitis, Asthma, Hay Fever, Croup, Whooping Cough. 50c and $1.00; trial bottles free at Dreier Bros.' drug store.

NOVEMBER RECORD FOR CORN

THE CEREAL GOES TO 51 ON CHICAGO BOARD.

Phillips Both Bought and Sold a Small Quantity—Contract Receipts Short.

Chicago, Nov. 27.—November corn made a new price record on the board of trade before 11 o'clock today. It sold at 51 cents. November opened unchanged to ¾c higher at 49 to 49¾c. Phillips bought 5,000 bushels at 50c. A minute later he sold it at 51c, the high price of the present bulge. A reaction to 49½c followed, but the market rallied promptly to 50c and held steady. Two cargoes of corn of undeniably contract grade were delivered to Phillips in place of the two which the inspection committee rejected yesterday. Of today's receipts, 929 cars, 57 cars were graded contract. Contract corn stocks are now 1,151,000 bushels. Taking into consideration the assertion that Phillips has 3,000,000 bushels due him on November contracts and the failure to make the kiln-dried corn pass for contract grade, the potency of the figures given is obvious. December opened unchanged at 36⅝@36½c and sold to 36⅜@36¾c.

November corn closed 1 cent over yesterday at 50c. A drive was made at December by local longs and that option closed weak, ⅜@½c lower, at 36c.

Wheat opened dull and weak on lower cables, but steadied in sympathy with corn. December opened ¼c down at 70½c to 70⅝c and reacted to 70⅜c. Local receipts were 182 cars, none of contract grade. Minneapolis and Duluth reported 594 cars, against 485 last week and 947 a year ago.

December later dropped on local selling to 70½c and closed easy, ⅜@½c down at 70¼c.

Oats were dull but steady. December opened a shade higher at 21⅞c, touched 21¾@21⅞c and rallied to 21⅞@22c. Receipts were 206 cars.

Provisions ruled fairly steady in spite of a heavy run of hogs. January pork opened 5c lower at $12.15, touched $12.05 and rallied to $12.20. January lard opened 5c down at $6.35 and January ribs 2½c lower at $6.32½.

THE CLOSE.

Prices at the close were as follows:

Wheat—Nov., 70¼@70⅜c; Dec., 70¼c; Jan., 71c.

Corn—Nov., 50c; Dec., 36c; Jan., 35@35⅛c; May, 36⅜@36½c.

Oats—Nov., 21¾c; Dec., 21⅞c; May, 24c.

Pork—Nov., $11.25, Jan., $12.20; May, $12.10.

Lard—Nov., $7.00; Dec., $6.97½; Jan., $6.87½; May, $6.92½@6.95.

Ribs—Nov., $7.62½; Jan., $6.32½@6.35; May, $6.37½.

Flax—Cash N. W., $1.66½; No. 1, from N. W., $1.65; No. 1, from S. W., $1.64½; Nov., $1.62½; Dec., $1.63; May, $1.62.

CHICAGO LIVE STOCK.

Chicago, Nov. 27.—Cattle—Receipts, 7,000; market generally about steady. Good to prime steers, $5.35@5.90; poor to medium, $4.25@5.25; stockers and feeders, $2.25@4.25; cows, $2.75@4.35; heifers, $2.75@4.75; canners, $2.00@2.75; bulls, $2.50@4.35; calves weak, lower, $3.50@5.00; Texas fed steers, $4.00@4.90; Texas grass steers, $3.30@4.15; Texas bulls, $2.50@3.30.

Hogs—Receipts today, 38,000; tomorrow, 40,000; left over, 4,686. Market averaged about 7½c lower, heavy, closing weak; top, $4.95. Mixed and butchers, $4.65@4.95, good to choice heavy, $4.70@4.95; rough heavy, $4.55@4.65; light, $4.75@4.95; bulk of sales, $4.80@4.90.

THE DAY ON WALL STREET.

New York, Nov. 27.—There were very heavy buying orders executed in different parts of the railroad list in the opening dealings, especially along the international stocks. The gains in this department ranged up to 1⅝ in Baltimore and Ohio. In the southern railways stocks the first transaction in the common was for 7,500 shares and for the preferred two blocks of 3,000 shares each were taken in quick succession, lifting the price 1⅜. Gains in a few other railroad stocks reached nearly a point and People's Gas was up 1¼.

The Steel and Copper stocks were heavy under the lead of Steel and Wire, which fell 1⅜.

The upward movement of railroad stocks continued for only a brief time. The high opening invited realizing and prices yielded. Steady liquidation in Amalgamated Copper forced it down 2⅛ and the general depression in the Steel group affected the general list.

Pretty much all of the initial gains were wiped out and some of the Pacifics and the Grangers declined below yesterday's close. Prices moved upward again before 11 o'clock.

Trading was very irregular. Buoyancy in the Coalers was taken advantage of to realize in other quarters. Some of the medium and low-priced railroads were advanced, including the Denver and Rio Grandes, Kansas and Texas preferred, New York, Chicago and St. Louis second preferred and Kansahwha and Michigan, the latter rising 3½. In New Jersey Central the gains reached 4 and the other Coalers were 1@2⅛ better. Weakness in Consolidated Gas, Rubber and Wisconsin Central preferred lowered them 1½ each. Southern Pacific moved upwards and Steel and Wire rallied 1¾, but the general market continued rather spotty.

Bonds improved, but the demand was not as large as on yesterday.

NEW YORK PRODUCE.

New York, Nov. 27.—Butter—Receipts, 5,700 pkgs; market steady; creamery, 18@25c; June creamery, 16@23c; factory, 12@16c.

Cheese—Receipts, 9,891 pkgs; market firm; large Sept., 10¾@11c; large late made, 10¾@11c; small Sept., 10¾@11½c; small late made, 10¾c.

Eggs—Receipts, 5,888 pkgs; market firm; western, regular packing, at mark, 20@23½c; western, loss off, 26c.

Sugar—Raw, steady; fair refining, 3⅞c; centrifugal, 96 test, 4⅜c; molasses sugar, 3⅝c; refined, quiet; crushed, $6.00; powdered, $5.70; granulated, $5.60.

Coffee—Market barely steady; No. 7 Rio, 7¼@7⅞c.

THE MONEY MARKET.

New York, Nov. 27.—Money on call nominally at 3@3½ per cent; prime mercantile paper, 4½@5 per cent; sterling exchange irregular with actual business in bankers' bills at $4.85¼@4.85½ for demand and at $4.81½@4.81¾ for 60 days; posted rates, $4.82½ and $4.86½; commercial bills, $4.80¾@4.81¼c; silver certificates, 64@65c; bar silver, 64½c; Mexican dollars, 50c.

Mrs. Costigan, of 147 Shawnee avenue, is lying very ill at her home and her children have been summoned to her side. Mrs. Shea, of Cincinnati, is already here and J. V. Costigan, of the same city, will probably arrive this evening. Mrs. Costigan was 87 years old last February. She has resided in this city many years.

Mrs. J. W. Sunderland entertained last evening in honor of her sister, Mrs. Charles Doudrick, of Kansas City, who leaves for her home tonight. There were about twenty-five people at the party and all enjoyed the occasion very much. Supper was served at 11 o'clock.

EYE WAS REMOVED

JAMES PAULEY HURT WORSE THAN HE SUPPOSED.

GATHERING AGE STATISTICS

PENNSYLVANIA GETS READY TO PENSION OLD MEN.

INSPECTING THE TRACKS

REGULAR TRIP OVER PITTSBURG NOW IN PROGRESS.

It will be painful news to the many friends of James Pauley, the boilermaker, to learn that the accident to one of his eyes last Saturday has resulted in the loss of the optic. Mr. Pauley was injured worse than he would at first admit. He believed that the piece of steel which cut the eye had fallen out and so stated to the attending oculist. Instead it passed entirely through the eye ball and all the skill that could be brought to bear upon it failed to remove it. After it became apparent that the eye could not be saved and that to leave it would endanger the other, the optic was removed at 2 o'clock yesterday afternoon. Dr. Parks White, assisted by Dr. C. C. F. Neischang, performed the operation at the home of the unfortunate man, on West Williams street. The reader will probably remember that Mr. Pauley was struck in the eye by a piece of boiler metal which he was cutting with a chisel in the Pittsburg shops. The young man has the sympathy of the entire shop force.

GOT THE LAST MAN.

The Findlay, Fort Wayne and Western road bears the distinction of having none but brotherhood firemen in its employ. Last night A. G. Porter lodge, of this city, initiated Fireman C. S. David, who was the only fireman in the employ of the Findlay, who, up to last night was not "within the fold." The local lodge now has a membership of over 160 and the order was never in a better financial shape.

GETTING READY FOR PENSION.

Instructions were issued this morning that each employe in the Pennsylvania shops should write on the back of his service card today the date of his birth. The object for gathering the age statistics are not given upon the notices which were posted on the bulletin boards, but it is understood to be in connection with the pension system which goes into effect on the Pennsylvania lines January 1. So far as can be learned at present there are about twenty-eight shopmen on the western division of the Fort Wayne road who are eligible for pension and possibly an equal number in the transportaion and other departments.

GRAND RAPIDS RELIEF.

As previously stated in The Sentinel, the Grand Rapids and Indiana employes are to be given an opportunity to participate in the benefits to be derived from the Pennsylvania Voluntary relief association, dating from January 1, 1901. The road will be divided into four districts. That part lying south of Ridgeville will be attached to the district covered by the medical examiner on the Panhandle who is stationed at Richmond; Dr. E. F. Wagner, of this city will be given that portion lying between Ridgeville and Kalamazoo, in addition to the western division of the Fort Wayne, over which he already has jurisdiction, and the northern end of the road will have two medical examiners, one stationed at Grand Rapids and the other at Cadillac. Dr. F. W. Brown, late of this city, who was recently appointed examiner of the Toledo division, is spoken of as the probable examiner for the Grand Rapids district. However, it is not known who will take the Grand Rapids and Cadillac positions.

FRIGHTFUL EXPERIENCE.

A special telegram from Peru to the Indianapolis News yesterday gives the details of the crossing wreck on the Wabash and the Lake Erie and Western road which was briefly referred to by The Sentinel yesterday. The telegram reads as follows: "The limited fast mail, westbound, on the Wabash railway, due in Peru at 8:30 in the morning, had a remarkably narrow escape from total wrecking at the Lake Erie and Western crossing. The limited mail was one hour late, and Engineer Mart Jamison was smashing the record on a straight track. A Lake Erie and Western freight train had right of way over the Wabash crossing. The air failed to work and the limited mail struck the freight in the middle, the engine plowing through a heavily loaded box car and yet holding the rails. Two other freight cars were also broken. The engine was stripped of its pilot, stack and cab. The fireman jumped, but the engineer remained at his post. The train was running forty miles an hour. The passengers were badly shaken up, but no one was injured."

GOES TO COLORADO.

Harry F. Brill, for many years a conductor on the Pittsbug road and for the past year general yardmaster for the company at this point, will go to Colorado to take a position as passenger conductor on the Denver and Rio Grande road. Mr. Brill is a fine fellow and his friends in railway and other circles will be sorry to learn that he is going to move from the city.

THREE MEN HURT.

There were three accidents at the Wabash shops this morning, the victims being Fred Stahl, an apprentice, William Knoll, a machinist, and William Tagtmeyer, a machinist. Mr. Stahl had the second and third fingers of his right hand painfully bruised by a driver box falling upon them. Mr. Tagtmeyer cut his left hand with a pocketknife while doing some work. The blade laid open the flesh for an inch or more and the wound bled profusely. Dr. M. F. Porter was called to dress the wound. Mr. Knoll's injuries are not serious, consisting of a bruised thumb and a cut index finger. He was coupling up an engine in the round house when the fingers were caught between the drawbars.

TRACK INSPECTION AGAIN.

Supt. C. M. Bennett, of the Cincinnati and Muskingum Valley road, is this week making his monthly track inspection of the Fort Wayne road. He left Chicago on his specially equipped train at 1 o'clock this afternoon and will arrive here at 5 o'clock. He will remain over night and in the morning make a trip over the line between this city and Crestline. At every depression or rough place on the track, the track indicator car leaves a whitewash mark and the section men are expected to immediately correct the defect in track.

TESTING ACETYLENE LIGHTS.

The experiments with gas and electricity for lighting purposes on its trains, which have been going on on the Pittsburg for several months, are about to be extended so as to take in acetylene gas. A car is today being equipped for this kind of light and will soon be running between this city and Chicago, alternating with the cars equipped with oil and electricity. The interest taken in the experiments is general, as it will decide a much disputed question: The best all purpose light for passenger trains.

VANDERBILTS BUY RAILROAD.

Detroit, Mich., Nov. 27.—A Journal special from Marshall, Mich., says: "The Vanderbilts have come into possession of the Cincinnati-Northern railway, which runs from Allegan to Toledo and from Jackson to Cincinnati.

"This information was announced here today, F. W. Whiteride having been elected president of the Cincinnati-Northern to succeed General S. Thomas. Mr. Whiteridge is director of the Lake Erie and Western, which is also a Vanderbilt line. Vice-president J. H. Seaman, of the Cincinnati Northern, conducted the negotiations leading up to the sale. Several millions of dollars will be expended on the road, and the proposed extension from Allegan to Lake Michigan, and car ferries to Milwaukee will be built. Headquarters will undoubtedly be removed to Cleveland."

Nickel Plate engine 9, with Engineer T. Whalen and Fireman Joseph Scheehle in the cab, is again in freight service on the Third district. This engine has just received general repairs at the Stony Island shops.

Contractor H. W. Tapp, who is building the immense arch bridge across Eel river at Columbia City for the Pennsylvania company, is experiencing much trouble with high water and the masonry is being delayed.

C. Charles, who quit a position on the Nickel Plate to take a similar one on the Lake Erie and Western, has returned to the former road. He has been assigned to a local freight train between Knox and Stony Island.

H. H. Marley, Southwestern passenger agent of the Michigan Central, who, when on a trip to New Mexico, was suddenly taken ill and serious results were feared, has recovered and returned to his headquarters.

Dr. F. W. Brown, who becomes medical examiner of the Toledo division of the Pennsylvania lines next Saturday, was here today, bidding friends good-bye. He has been visiting his old home, Logansport, for two weeks.

Brakeman B. A. Bent, for two years on the Nickel Plate local freight running between Stony Island and Knox, Ind., has been transferred to through freight and is now a member of Conductor Kitselman's crew.

At a recent meeting of the general baggage agents a new set of rules was adopted governing the handling of baggage cars in connection with small parties, more especially theatrical business. The new rule says that when a company makes two stops on a certain line the minimum charge shall be $25, or $12.50 for each stop, but if the company makes three or more stops the minimum charge will be $10 for each stop. Nothing was said at the meeting about the abolition of brass checks for baggage, the wisdom of a change to card checks being questioned by some of the older of the baggage agents.

The condition of the venerable blacksmith, Joseph Carry, of the Pittsburg shops, is such as to cause grave uneasiness in the minds of his family. Mr. Carry has been unconscious for several days and all visitors are denied admission to his room.

Chairman Goddard, of the trunk line executive committee, will appoint a committee to confer with one representing Western roads on the proposed restriction of the interchange passes to employes, requiring employes to pay a rate of 1 cent per mile.

General Superintendent Blodgett, of the Lake Shore and Lake Erie and Western lines, spent the latter part of last week inspecting the Lake Erie and Western, visiting Michigan City among other places, to look after contemplated improvements at that point.

Engine 172, which was hauling Nickel Plate train No. 2, had a slight mishap at South Whitley yesterday and had to complete the trip to this city with only one cylinder in operation. The train was a half hour late in reaching the city in consequence of the accident.

Travel is uncommonly heavy this week, due, no doubt, to the holiday. All the trains through the city yesterday were well filled with passengers. The Nickel Plate ran its eastbound train in two sections, the second train having a party of over 300 bound for New York.

Both the Chicago, Indiana and Eastern and the Cincinnati, Richmond and Muncie are asking subsidies from Marion, Ind., to extend their lines through that place, and it has been suggested that both votes be taken on the same day, but one of the companies opposes this plan.

Indianapolis Journal: "The Wabash Railway company losing in the famous Eel River road case insures Fort Wayne getting another line through the building of the Fort Wayne and Butler road. Fort Wayne territory is too valuable to the Wabash for that company to abandon it."

Engine 1,354, from the Buffalo division, and engine 775, from the second division, of the Wabash, came here yesterday and were taken into the shops for general repairs. Engine 60, which has just been turned out of the shops, was sent to the Detroit division this morning to be placed in service.

Engineer M. Stafford is sick and Engineers William Gates and C. Sweeny are off duty by permission. Engineers Samuel P. Speece, J. E. Long, W. H. Shelvey, P. E. Malone and Max Horning, and Firemen D. S. Peterson and A. Siegrist, who had been off duty for various reasons, reported for duty on the Pittsburg this morning.

The roads in Central Traffic association territory are employing a good many new men for the winter season. Employes on the trains must not be over thirty years of age. Their eyes are tested as to color blindness, and in employing firemen a certain weight and height is required.

It is stated that as a result of the tour of inspection made by the Pennsylvania directors recently over the Chesapeake and Ohio road and the Norfolk and Western $10,000,000 to $12,000,000 will be expended in building short branches and developing the coal properties of the two companies in West Virginia.

SEEKS HOME HERE

PAUL KRUGER MAY COME TO UNITED STATES.

GENERAL PEARSON'S BELIEF

BOER PRESIDENT IS SOON TO LEAVE PARIS.

REFUGE MAY BE PERMANENT

UNLESS TRANSVAAL ARMS ARE TRIUMPHANT.

New York, Nov. 27.—Samuel Pearson, formerly commissionary general of the Transvaal army, has just arrived in this country with a number of other Boer refugees, is responsible for the statement that President Kruger will soon seek refuge and a permanent home here.

"President Kruger will leave Paris very soon, I believe," said General Pearson, "and come to America where his wife will join him and they will make their home here until such a time as our arms have triumphed and he can return to the South African republic to take up again his office as chief executive of the Boers."

KRUGER VISITS THE PREMIER.

Paris, Nov. 27.—Mr. Kruger began a busy day this morning by making an official call. Before nine o'clock he departed from the hotel Scribe, driving in a landau, surrounded by republican guards and bicycle police men to visit the premier, M. Waldeck-Rousseau.

He was accompanied by Dr. Leyds, Dr. Van Hammell and Delegate Fischer. The party was met at the entrance to the premier's salon by M. Ulrich, director of the cabinet, who introduced the visitors to the prime minister.

The interview took place in M. Waldeck-Rousseau's private study and lasted ten minutes. At half-past nine o'clock the premier, accompanied by M. Ulrich, returned the call.

The officers of the municipal council of Paris and of the general council of the Seine were received at 10 a. m. by Mr. Kruger in the Hotel Scribe.

The interview was private and brief. Immediately after the visitors had departed Mr. Kruger drove to the Hotel DeVille. He received an ovation from a large crowd massed in the square in front of the edifice. Mr. Kruger was conducted to the debating hall, where he was given the armchair reserved for representatives of governments. The municipal councilors and the people in the public galleries loudly cheered the distinguished visitor. Vice President Escudier delivered an eloquent address, saying Paris had given Mr. Kruger a welcome worthy of his noble character and the grandeur of his cause. He also said:

"You have heard the heart of Paris beat. It is the heart of France. Let the peoples speak and speak loudly, and arbitration will impose itself as a necessary satisfaction to justice and civilization."

The president of the general council spoke in a similar strain.

Mr. Kruger replied in energetic tones, thanking the speakers for the sentiments expressed.

He said he was deeply grateful for the welcome, which was a continuation of and a crowning of that France had already given him. Since he landed, the former president added, he had been on a rising wave of acclamation.

He was very thankful for what had been done and for what they wished to do for him and his people, who were still struggling and were not yet defeated. Their resistance continued and would continue. They would ever struggle for independence, liberty and justice.

Continuing, Mr. Kruger said:

"Ah! why can they not hear your acclamations. It would redouble their courage."

Mr. Kruger also said he hoped they would yet know them, one day in the future when they had recovered their independence. He regretted arbitration had been refused and he would never cease to demand it.

The Boer leader was then shown through the superbly decorated halls of the Hotel DeVille.

Once he appeared at a window and was enthusiastically cheered. As he drove back to his hotel he was accorded a warm greeting on the road.

The president of the municipal council tomorrow will propose in the council a vote in favor of arbitrating the Transvaal disputes.

Henri Rochefort, accompanied by a deputation, including Deputies Millevoye and Haulin-Mery, Senator Provert Delaunay and MM. Coppee and Lemaitre, today presented Mr. Kruger with a sword of honor destined for General Cronje, now a prisoner on the Island of St. Helena.

WILL RETAIN ISLE OF PINES.

New York, Nov. 27.—The United States will retain possession of the Isle of Pines whatever the final disposition of Cuba, says a Washington dispatch to the Journal and Advertiser. It will be fortified and a strong garrison will be kept there. Lying south of the western end of Cuba, the Isle of Pines commands the western part or Yucatan entrance to the gulf and forms an important outpost for the defense of the Nicaragua canal. While Secretary Root visited Cuba he went to the island and recognized its strategic importance. The state department now holds that under the treaty of peace the Isles of Pines passed to the United States. Secretary Root holds a similar view.

ACTORS FAVOR SUNDAY REST

THEIR CHURCH ALLIANCE IS PUSHING CAMPAIGN.

Association Behind the Prosecutions of Sunday Performances in New York.

New York, Nov. 27.—The Actors' Church Alliance of America has begun an active campaign against Sunday theatrical performances and its members promise to keep it up until actors have one day of rest in seven, the same as persons in the ordinary avocations of life. It claims to have caused the arrests which have been made in New York the past three Sundays and it is now keeping an eye on the prosecution of these cases.

Rev. Francis J. Clay Moran, chairman of the law committee, has given out a copy of a letter which he had sent to Deputy Chief Cortwright last Friday dealing with the subject. It had been stated that the arrests in question were due to the actions of the Tammany purity committee, and Mr. Moran took occasion to correct this impression. He said that the law committee of the alliance had not had any communication with the Tammany committee in any way and knew nothing of its actions.

SENATOR DAVIS IS SINKING

THOUGHT HE WILL NOT SURVIVE THE DAY.

At Noon His Physicians Stated He Was Still Living But Was Extremely Weak.

St. Paul, Min., Nov. 27.—United States Senator Cushman K. Davis was still alive early today but it was thought by his attendants that he will scarcely survive the day. He is much weaker and slowly sinking.

At 10 o'clock Dr. Stone issued the following bulletin:

"Senator Davis has failed rapidly since four o'clock this morning. Respiration 16; pulse 140 to 146; temperature 104-2-5."

At noon the physicians stated that Senator Dais was still living but extremely weak.

WRECK STORY A FAKE.

Washington, Nov. 27.—At the office of the Chesapeake and Ohio railroad in this city, it was stated today that there is no truth in the reported wreck of a passenger train near Hinton, W. Va. A landslide occurred at Alleghany station Sunday night which delayed traffic one day. The road is now clear, however, and trains are running as usual.

BIG MARKET DAY.

Fort Wayne has seldom seen a larger market than that on Harrison street, this morning, the teams being solidly massed in a line that extended from the Nickel Plate railroad to Wayne stret. The approach of Thanksgiing was largely responsible for the increased number of farmers and a large part of their stock was poultry, which found a ready sale.

OIL MAKES AN ADVANCE.

Toledo, Ohio, Nov. 27.—(Special.)—Eastern oil advances two cents today; western, one cent. Indiana oil now selling at 75 cents.

Mrs. Frank Hively and daughter Jennie have returned from a visit with friends in Columbia City.

ONLY DISCUSSION

WAS WHITE'S INTERVIEW WITH BARON VON RICHTHOFEN.

GERMANY HAS NOT REFUSED

TO ENTERTAIN SECRETARY HAY'S SUGGESTION.

WAITING ON OTHER POWERS

IF SUPPORTED WILL ADHERE TO ORIGINAL DEMANDS.

Berlin, Nov. 27.—Andrew D. White, the United States ambassador, today reiterated to the correspondent of the Associated Press that his recent interview with Baron Von Richthofen, the secretary of foreign affairs, was a mere discussion of the Chinese question. Germany made no refusal and does not know whether she will make any answer to the United States' suggestions.

A representative of the foreign office informed the correspondent that he could not go into any details about the matter. He assumed that the note had been communicated to all the other powers and refused to say whether Germany was preparing an answer nor how she would answer, adding:

"We must not interfere in the matter. It is the United States government's business to give out information on the subject, especially since the diplomatic negotiations at Pekin are about finished."

The correspondent, from various other sources, gathers the following facts:

Germany, before replying to Secretary Hay's note, wishes to ascertain from her diplomatic representatives at the capitals of the powers how the other powers received the United States' suggestions. Replies from the representatives are expected within forty-eight hours.

If Germany, from the answers, should find that grave danger exists of Germany's isolation by not heeding the United States' suggestions and insisting on extreme punishments, then Germany will answer the United States favorably. If, however, Germany should find enough of the powers siding with her, then she she will adhere to her original demands. Field Marshal Count Von Waldersee reports that Colonel Armasted, with a small detachment of German troops, has left Tien Tsin on a punitive expedition to Wu-Sing-Hsien and Nan-Tsi-Tsun, northwest of Tien Tsin.

Colonel Yorck's column left Kalgan for Pekin November 23.

The Lokal Anzeiger publishes a dispatch from Shanghai which says:

"Unfavorable reports are in circulation concerning alleged American intrigues."

The dispatch adds:

"The Germans have occupied the rich coal fields on the borders of the provinces of Chi-Li and Shan-Si."

WOMAN VIOLENTLY INSANE

LIZZIE DAMMEYER CONFINED IN PADDED CELL.

Took Combined Efforts of Several Men to Subdue Her—Tries to Demolish Cell.

Miss Lizzie Dammeyer, a young woman about twenty years of age, who resided with her parents at 63 Douglas avenue, became violently insane this morning, and for a while made things interesting about her home. The woman was adjudged insane by a commission about a month ago, but at the time she begged so piteously to be allowed to remain at home that it was concluded to allow her to stay. Since that time and until this morning she has been inoffensive, but today she became violent. The patrol wagon and several officers were sent for, and she was overcome after a severe struggle, and was removed to the county jail, where she was placed in the padded cell. She had not been there long, however, before she discovered a loose corner of the padding, and she at once proceeded to tear the lining to pieces. She had about succeeded when she was discovered. Sheriff Stout this morning wrote to the authorities at Richmond, and if she will be accepted there on the old papers, she will be sent at once.

CONDITIONS ARE EXCELLENT

COUNTY BOARD OF CHARITIES MAKES INSPECTION.

Saw Three Public Institutions Today and Were Highly Gratified at Their Showing.

The Allen county board of charities today began its quarterly inspection of public institutions, and Mrs. W. P. Cooper, Capt. G. A. Gale, the secretary, Capt. Allen H. Dougall, and Miss Rudisill made a visit to the county infirmary, the Allen county orphans' home and the home used for the children under the care of the board of childrens guardians. Dr. C. B. Stemen and Alex. White, who are also members of the board, were unable to accompany the other members today.

Mrs. Cooper tells The Sentinel this afternoon that the conditions at each of the institutions visited were most gratifying. The county asylum, as a home, as a dormitory and from the standpoint of the table, is all that could be desired. During the past year the dormitory has been repainted and repapered, and presents as fine appearance as can be expected in a building that lacks some modern advantages. The orphans' home has always been a model institution, and it is fully up to its previous excellent record. While the home used by the board of guardians is not strictly speaking a public institution, it was inspected and found in excellent condition.

BLAZE WAS A SLIGHT ONE.

At 4 o'clock this morning employes of the New Aveline hotel found the corridors and rooms upon the third floor filled with smoke of a suffocating density and turned in an alarm of fire. Before the department could arrive the porter had located the trouble in his own room where the bedding was ablaze, and extinguished the fire with a few pales of water. The bedding was totally destroyed and some damage done to the wall paper in the room, but otherwise there was no loss. The porter had left his room some hours before, and it is suspected he had been smoking in bed. Landlord Jones can account for the blaze in no other way.

RIVERS ARE RISING

MUCH DAMAGE IS CAUSED IN PITTSBURG.

THREE MEN LOSE THEIR LIVES

UNPRECEDENTED FRESHET FOR NOVEMBER.

PEOPLE HAD SHORT WARNING

WEST VIRGINIA RIVERS ARE OUT OF THEIR BANKS.

Pittsburg, Pa., Nov. 27.—After three days of incessant rain, a flood unprecedented for this season of the year and quite unexpected in its fury, swept down the Monongahela and Allegheny rivers last night.

In their mad rush the waters ruined hundreds of thousands of dollars' worth of property, caused the loss of at least three lives, temporarily threw out of employment thousands of workmen by the forced suspension of the many industrial establishments lining the banks of both rivers and rendered hundreds of families homeless.

THE DEAD.

The fatalities are:

Frederick Koppman, aged 66 years, tripped and fell, breaking his neck while removing goods from his home.

Joseph Davis and Joseph Flocker, mill workers, drowned by capsizing of a skiff in the Allegheny.

A November flood is quite common, but it rarely reaches the danger line and for this season the steady rains of the past few days caused no alarm. The precipitation had been heavier than usual in the mountains at the headwaters of both rivers, however, and it was not until late yesterday that the warning was sent out that both streams were getting beyond their banks and that there was a dangerous flood threatened.

And the result was the fast rising waters caught many wholly unprepared and much valuable property that was tied up for only a moderate stage was carried away. The danger line is twenty-four feet and this was passed about 3 o'clock this morning and seven hours later, at 11 a. m., the marks at Davis Island dam registered twenty-five feet and seven inches.

Both rivers were stationary and it was thought that the worst was over and before nightfall the waters would be receding.

The low lands in Pittsburg, Allegheny, South Pittsburg, Sharpsburg and McKeesport are inundated and nearly every plant fronting the two rivers have been forced to shut down.

Hundreds of families in these districts have either been driven from their homes or are living in the upper floors and using skiffs.

There were many narrow escapes from drowning during the night and several men are reported to the police as missing, but the only known fatalities directly traceable to the flood were those of Koppman, Flocker and Davis, reported above.

Davis and Flocker with three companions attempted to row across the Allegheny in a skiff, which became unmanageable and collided with a coal boat. The men were thrown into the river and Davis and Flocker drowned.

The others clung to the upturned boat and were rescued after being carried two miles down the river.

At Nerville Island the four-span railroad bridge in course of construction was swept away during the night. It was being erected for the American Steel and Wire company and was also to be used for passenger traffic by the Pittsburg and Lake Erie Railroad company.

OHIO RISING AT PARKERSBURG.

Parkersburg, W. Va., Nov. 27.—Today opened clear after a week's steady storm of rain and snow. The Ohio river is rising rapidly and reached a stage of fifteen feet eight inches at 8 a. m. today.

The stage of the Little Kanawha at Creston and Grantsville was fifteen feet, but no fears are entertained thus far of a serious flood.

MUCH DAMAGE DONE.

Parsons, W. Va., Nov. 27.—High water has done thousands of dollars of damage in this county during the past thirty-six hours. Water put out the fires in the court house basement in this city and surrounded the school house, compelling adjournment of court and school.

HAD STOLEN BANK NOTES.

Detroit, Nov. 27.—James Simpson, of Montreal, and Louis Mathcis, of Rochester, N. Y., were arrested here last night on suspicion and the police in searching them found in their possession $30 in Canadian $10 notes that did not appear to be valid. Today it was ascertained that the notes are part of a $10,000 issue of the Dominion bank of Toronto, which was stolen from the bank's branch at Napanee, when it was so sensationally robbed a number of months ago. The notes which were stolen were signed but not countersigned, and it was this circumstance which made the police suspicious of their validity. The prisoners admit that they have police records, but claim to have come by the money honestly.

SCALDED BY COFFEE.

Isaac Sherman a waiter at the Wellington cafe, was painfully scalded about the face, left hand and arm about 9:30 o'clock this morning. Sherman was pouring coffee into the large urn upon the counter when the stool on which he was standing tipped and threw him off his balance. His left arm plunged down into the scalding hot coffee while his face was directly above the urn. He will be off duty for some time.

A PLOT AGAINST ROBERTS

ALLEGED CONSPIRACY FOR KILLING HIM.

Assassins Planned to Blow Up a Church in Johannesburg Last Sunday.

London, Nov. 27.—According to a special edition of the Evening Standard today, a plot to assassinate Lord Roberts, in which twenty foreigners are concerned, has been discovered.

It appears that the conspirators laid a mine which was designed to be blown up Sunday while Lord Roberts was in church at Johannesburg, but the police and Lord Roberts' bodyguard frustrated the conspiracy.

Ten men, mostly Italians, have been arrested.

These details, the Evening Standard says, it has been unable to verify.

BATTLES WITH BOERS.

London, Nov. 27.—Lord Roberts, cabling from Hohnmesburg, under date of November 26, reports a number of battles with the Boers at widely seperated points, in which the British captured some cattle and a few prisoners and suffered slight casualities. The most serious affair was an engagement with the forces of Gen. Delary, numbering about 1,000 men with the three guns, who opposed Gen. Clements' march towards Rietfontein.

The Boers, the dispatch says, are completely dispersed.

MAY PIPE GAS OUT OF STATE

SUPREME COURT GAVE A DECISION TODAY.

Holds Law of 1889 Unconstitutional—Appellate Court Affirms a Fort Wayne Case.

(Special to The Sentinel.)

Indianapolis, Nov. 27.—Under a decision of the supreme court rendered today natural gas can be piped out of Indiana. The court affirmed the decision of the lower courts in the case of the Manufacturers' Gas company vs. the Indiana Natural Gas and Oil company, from Marion, Ind., whose managers sought to prevent the piping of gas outside the state under the law of 1899. The supreme court today holds this law unconstitutional.

DECISION IS AFFIRMED.

Indianapolis, Nov. 27.—(Special)—The appellate court today affirmed the decision of the Allen county circuit court in the case of Fort Wayne vs. James Patterson. This is one of the city's appealed cases on suit for damages growing out of the killing of several persons in the Lakeside waterworks trenches three years ago last summer.

SOUTH BEND CITIZEN DIES.

South Bend, Ind., Nov. 27.—David H. Leeper, ex-mayor of this city and former member of the Indiana legislature, died here today aged 70. For many years he was a leading democratic politician.

M. W. Landis, of Columbia City, transacted busines in the city on Monday.

SITUATION ACUTE

UNITED STATES AND TURKEY GLARE AT EACH OTHER.

THE PORTE IS OBSTINATE

CONSUL GRISCOM MAKES ONE MORE VISIT.

IT IS BARREN OF RESULT

THE PORTE IMPRESSED BY THE KENTUCKY AT SMYRNA.

Constantinople, Nov. 27.—The relations between the United States government and the Porte are becoming acute. Mr. Griscom, the American charge d'affaire, went to the Yildiz Palace Sunday and had an interview with Tewfik Pasha, minister of foreign affairs, and Tahsin Bey, first secretary at the palace. The interview, however, was barren of result.

While the Porte outwardly persists in the attitude it has assumed regarding the question of granting an exequatur to the United States consul at Harpoot, there is reason to believe that the dispatch of the battleship Kentucky to Smyrna has made a marked impression in official circles.

DR. HENRY RANKE RESIGNS

VACANCY ON THE CITY BOARD OF HEALTH.

The Physician Will Make an Extended Trip to Europe—Notes at the City Hall.

This morning Dr. Henry Ranke handed to Mayor Scherer his resignation as a member of the city board of health, to take effect at once. Dr. Ranke states that he expects to be absent from the city for the greater part of the coming year, and it is learned that he will go to Europe to take a post-graduate course in his profession. Dr. Ranke will leave the city Thursday and will spend a short time in Philadelphia before sailing.

CITY COUNCIL TONIGHT.

The city council will meet in regular session this evening and it is probable a number of interurban franchises will be up for consideration. The franchise of the American District Telegraph company will also come before the council for ratification and some appropriation matters will be passed upon.

MUNICIPAL NOTES.

The waterworks committee of the city council was called for a meeting at 3 o'clock this afternoon.

The board of works has approved the bond of H. F. Franke.

Sometimes the public has a rather hazy idea of the duty of public officials. It is only a few days ago that an indignant citizen telephoned A. M. Schmidt, clerk of the board of public works, that another man had driven his wagon across the streets and the complainant could not pass with his vehicle. He wanted Mr. Schmidt to hurry to the scene and compel the offender to move on.

Some damage has been reported from the heavy charges of dynamite used in blasting the intercepting sewer, and Mr. McCracken, of the board of works, has directed the contractor to reduce the size of the charges used.

POPE LEO QUITE WELL.

London, Nov. 27.—The report of the death of the pope, which reached New York today, was based on Paris rumors circulated by a small news agency. The pontiff was quite well yesterday, when he received in audience the princess of the Asturias, eldest sister of the King of Spain.

Dr. Martz on Monday received word of the death of his ant, Mrs. Henry Hartman, of Charlottesville, Va., which occured a few days ago. Mrs. Hartman formerly resided in this city but left here about fifteen years ago. She was eighty years old and leaves a husband and four children. The illness that resulted in her death, was the first she had suffered in thirty years.

Miss Clementine Meyers is the guest of Edward Kessler and family, of Columbia City, for a few days.

LIVELY CONFERENCE OVER SOUTH WAYNE SEWER.

CONTRACTOR MEETS BOARD

NUMEROUS DEFECTS POINTED OUT IN THE WORK.

COMMITTEE TALKS PLAINLY

MR. ADAMS MAY SUB-LET THE ENTIRE JOB.

J. T. Adams, who has the contract for the construction of the South Wayne sewer, is doing a lot of figuring today as to the best plan to pursue with reference to the work upon the big drain over which the board of public works and citizens of South Wayne are united in a vigorous protest. This morning Mr. Adams stated that he could not say exactly what would be done, for he had not yet reached a conclusion as to the best plan to pursue. He stated that he desired to do the fair and honorable thing both for himself and for the city, and the present probability is that he will find some competent man to whom he can entrust the work of completing more than half of the work which still remains to be done.

Mr. Adams arrived in the city from Columbus Monday evening, and when he met the board of public works the liveliest sort of a session followed. For two hours last evening the matter was under discussion, and every interest had a hearing. There was no mincing of words, and everybody who had an opinion to express did not hesitate to speak out. In addition to the board of works, City Attorney Shambaugh and Contractor Adams, the citizens' committee was represented by Hon. J. M. Barrett, C. H. Worden, Col. D. N. Foster and S. B. Bond, while Hon. Charles McCulloch was also an interested listener, who occasionally participated in the discussion.

Mr. Barrett took up the work upon the sewer from start to finish. The report of the expert engineer, Mr. MacHarg, was before the board, and Mr. Barrett, who accompanied him on his trips of inspection of the sewer set forth in vigorous language that could not be misunderstood the contentions of the citizens regarding the defective work at numerous points. He was plain-spoken in expressing what he believed to be the cause of the defects, and in placing the responsibility for them, and notified the board and the contractor that he would resist any attempt to collect assessments for the class of work that had been done, and that he would enjoin any further attempt to proceed with work that was unsatisfactory. He asserted that along Taylor street the brick had been laid in water contrary to the specifications; that the trenches had not been dug wide enough to permit a proper tamping of the earth around the sewer; that it had sunk by reason of heavy loads of earth being dumped on green work; that the brick work in places was not in accordance with specifications; that the work was unsafe and was likely to collapse with any unusual flood of water and destroy thousands of dollars worth of property. In brief, Mr. Barrett made out a pretty hopeless case against that portion of the sewer which had been inspected, and thought the findings there might give rise to suspicions regarding other portions of the work.

Mr. Adams readily admitted his responsibility for the single-ring brick work which had been done where two rings were required, stating that this had been done under the supervision of an incompetent man, whom he had since discharged. This portion of the work he was willing to remedy promptly. He contended, however, that the portion of the sewer on Taylor street west of Broadway had been built strictly according to specifications, and stated that though he did not think so at the time, he was now confident that no sewer would stand in that soil unless the sheathing were allowed to remain in the earth.

The board and the citizens' committee were not inclined to accept Mr. Adams' theory that the work had been done according to specifications, and the members of the board stated that just one thing was to be done. That sewer must be in all respects and in every part strictly in accordance with the plans and specifications and entirely acceptable or they would never sign an assessment roll for the payment of one dollar upon it. They are willing to permit Mr. Adams to proceed in any acceptable manner he chooses to bring about this result, but nothing less than a perfect work will ever be accepted by the board.

During the latter part of the discussion Mr. Adams talked but little, but he was inclined to shift the responsibility for any poor work upon the shoulders of the board for the reason that he stated the city inspectors who watched the construction of that portion of the sewer made no objections at the time. This was met by the statement that the city was under no obligation to even furnish an inspector, and if an inspector had been furnished who was incompetent it did not excuse the contractor who had agreed to follow specifications. Mr. Adams expressed the conviction that the citizens "had it in for him," and doubted his ability in the face of this feeling to construct work that would be satisfactory to them. Mr. McCulloch thought the board should have stepped the work as soon as it was known to be defective instead of waiting until so late a date.

This morning Mr. Adams held another brief conference with the board, but has reached no decision as to how he will proceed. He regards most favorably subletting the work to some contractor who will be acceptable to the board; then first completing the work on Nelson street and connecting up the divisions so that the water can be drained from ahead of the work. He will take some action within a day or two.

ANARCHIST PLOT

AGAINST THE LIFE OF THE PRESIDENT.

WAS BREWED IN PATERSON

UNKNOWN WRITER UNCOVERS THE CONSPIRACY.

DESPERATE MAN RINGLEADER

NEW YORK POLICE HAVE INFORMANT IDENTIFIED.

New York, Nov. 27.—The police of Hoboken, N. J., have received a letter alleging the existence of a plot to assassinate President McKinley. The writer of the letter gave in his communication the name of the alleged chief conspirator, which the police refuse to make public at this time. The letter, which is illegibly signed, is as follows:

"Sir—Having almost thoroughly assured myself of an anarchist plot against his excellency, McKinley, I consider it my duty to advise you of the name of one who is more than suspected of being a leader, whose name is found on the enclosed slip. He is a fugitive from justice and a dangerous man, having been convicted several times, and on the last occasion being sentenced to five years imprisonment for an anarchist attempt.

"My statement can be verified on appealing to the perfect of police at Paris, France. In the course of the past year he had concealed with him a man named Francois, the author of an anarchist plot at Scranton, where he mortally wounded an agent of the police."

The writer of this letter, the police say, has been located, and his story will be investigated.

BIG CROWD COMING.

Present indications are that the special train from Indianapolis bringing friends from that city to attend the consecration of Bishop Alerding on Friday will carry an immense crowd of people, as the railroad company has been asked to arrange to handle a crowd of 2,000. The train will arrive over the Lake Erie and Western at 7 o'clock Thursday evening. Preparations for the consecration are being completed as rapidly as possible and the committee have been notified of the attendance of three additional bishops—Bishop Eis, of Marquette, Wis.; Bishop Maes, of Covington, Ky., and Bishop Janssen, of Belleville, Ill.

Members of the Shakespeare club were entertained at dinner last evening by Mrs. Harbert Shorey.

KNOWS NO DISTINCTION.

Rich and Poor Alike Suffer From Catarrh in This Climate.

All observant physicians have noticed the enormous increase in catarrhal diseases in recent years, and the most liberal and enlightened have cheerfully given their approval to the new internal remedy, Stuart's Catarrh Tablets, as the most successful and by far the safest remedy for catarrh yet produced.

One well known catarrh specialist, as soon as he had made a thorough test of this preparation, discarded inhalers, washes and sprays and now depends entirely upon Stuart's Catarrh Tablets in treating catarrh, whether in the head, throat or stomach.

Dr. Riddell says "in patients who had lost the sense of smell entirely and even where the hearing has begun to be affected from catarrh I have had fine results after only a few weeks' use of Stuart's Catarrh Tablets. I can only explain their action on the theory that the cleansing and anti-septic properties of the tablets destroy the catarrhal germs wherever found because I have found the tablets equally valuable in catarrh of the throat and stomach as in nasal catarrh."

Dr. Estabrook says Stuart's Catarrh Tablets are especially useful in nasal catarrh and catarrh of the throat, clearing the membranes of mucus and speedily overcoming the hawking, coughing and expectorating.

Any sufferer from catarrh will find Stuart's Catarrh Tablets will give immediate relief, and being in tablet form and pleasant to the taste are convenient and always ready for use as they can be carried in the pocket and used at any time as they contain no poisonous drugs, but only the cleansing antiseptic properties of Eucalyptus bark, Guaiacol, blood root and Hydrastin.

All druggists sell the tablets at 50 cents for complete treatment.

RYAN-YOUNG NUPTIALS.

Miss M. Amber Ryan and August F. Young, both of this city, were united in marriage Thursday afternoon at 4 o'clock, the ceremony being performed at the Episcopal residence, Rev. Father P. J. O'Reilly officiating. The attendants were Louis Young and Miss Catherine Ryan, brother and sister to the bride and groom, and a large company of friends of the young couple were present to extend congratulations. In the evening an enjoyable reception was held at the home of the bride's mother, Mrs. Matilda Ryan, of West Main street. Both bride and groom are very popular, and a host of friends will extend them best wishes. Mr. Young is employed at the Bass foundry.

WILL MEET TONIGHT.

The regular meeting of the Allen County Medical society will be held this evening in the assembly room of the court house. Papers will be read by Dr. Greenwell, of Huntertown, on "Neuralgia," and by Dr. G. W. McCaskey. The society will meet in the court house until more suitable quarters are secured.

Editor W. V. Barry, of Lexington, Tenn., in exploring Mammoth Cave, contracted a severe case of Piles. His quick cure through using Bucklen's Arnica Salve convinced him it is another world's wonder. Cures Piles, Injuries, Inflammation, and all Bodily Eruptions. Only 25c at Dreier Bros.

Real Indian chiefs, who do not require grease paint, rouge or wigs to give them nature's color, are used in the new melodrama, "War on Women," that will be at the Masonic Temple tonight. They are not Bowery "fakirs," but the real red men of the prairies, representing several prominent tribes, like the Sioux and Apaches. Among these chiefs are Rain-in-the-Face, Hawkeye, Mohawk, Black Cloud, Geronimo, Short Hair and a young squaw, Red Bird.

Geronimo is in love with the heroine, the niece of Gen. Prescott, commanding the post near the scene of the Indian trouble. Hope Booth, a charming soubrette, appears in this character. She is the stellar factor in the play—as Annie Pixley was in "Miss" and Lotta in her successes.

Miss Booth has achieved a double triumph in this play—as the heroine and as an artist's model.

The sale at the Anderson Tea Store Wednesday, all day, for the benefit of the Allen County Orphans' Home, will consist of sliced boiled ham, roast turkeys, salads, salad dressing, pies, cakes, bread, buns and biscuits. 26-2t

Young Mr. Phillips' corner in corn is not the biggest thing that ever was, but it is about as near air-tight as anything can be unless it is a political cinch in Texas.

Jerry Simpson has disclosed the possession of one sock if not a pair of them, and he is going to fill it, not with one of his famous sockless pedals, but with cash. He has sold his farm and invested the proceeds in a corporation.

Charles H. Hoyt, the late playwright, put a bit of grisly humor into his will which has just been probated. He bequeathed his fortune, which was large, to his former business partner, to a friend and to charity, cutting off his relatives without even the traditional and insufficient shilling. He gave as a reason for thus disposing of his property that as he had no kin nearer than cousins who, never having shown by any act a desire for his friendship or goodwill, probably felt no interest in him nor anything that belonged to him.

Senator Pettigrew, of South Dakota, lays against Senator Hanna some of the blame for his defeat in the late election, and he meditates a form of atrocious vengeance that must appall the other senators, if not the entire country. That archaic parliamentary usage known as senatorial courtesy permits any senator to talk as long as plenses and Senator Pettigrew grimly declares that he is going to talk Senator Hanna's ship subsidy bill to death before he retires the 4th of March. This is horrible enough, but it is probably the lesser of the two evils. Perforce Senator Pettigrew's talk must come to an end at farthest the 4th of March and there is no knowing or telling where the subsidy iniquity will find its finish or what it will cost the people before it does. Here's courage to the melancholy one from South Dakota and strength to his jaw.

Something of the operations, including its evils, of the federal bankruptcy law is disclosed in the recent report made to the attorney general of the United States. The total petitions filed for the period ending September 30, 1900, is 20,128, with a few districts missing. Of the voluntary petitions all were adjudicated bankrupt except 237. The liabilities in 19,540 voluntary cases were $264,079,053, while the total assets scheduled in these cases were $33,-098,771, a small fraction more than 12 per cent. In other words there has been voluntary recourse to the bankruptcy act to settle considerable more than a quarter of a billion dollars of debt at 12 cents on the dollar. The report says with reference to the voluntary cases that advantage is being taken of the law by men of all classes in every section of the country.

Secretary of the Navy Long in his annual report urges revival of the grade of vice admiral in the navy. The grade of admiral was revived while Admiral Dewey was yet in Manila, for the two-fold purpose of distinguishing him and to relieve him of some embarrassments that in his relations to naval commanders of other nations sprang from his inferior rank. While there is no real objection to reviving the rank of vice admiral there may be seen in Secretary Long's recommendation the signs of trouble. Evidently the secretary has not abandoned his purpose to honor Admiral Sampson above Admiral Schley in consequence of the Santiago naval victory. The secretary probably believes that the overwhelming victory of the administration in the late election meant among other things entire approval of his course with reference to the gallant Marylander who smashed Cevera. It may be set down as pretty certain that if the grade is revived it will provide for two appointments to the rank. Admiral Schley's friends in the senate will not be apt to allow him to be superseded either in rank or recognition.

THE WATER TEST.

The test now being made at the north side waterworks of the capacity of that field to furnish deep well water is proceeding satisfactorily. The compressed air system employed in the test appears to be furnishing proof that there is plenty of the best kind of water there. The test is not yet completed nor has it yet been of a character to demonstrate absolutely that the supply of water is abundant for all present and future needs. But such a test is to be made within a few days. A number of wells will be pumped at the same time and a sufficient volume of water voided to seriously affect the supply if it can be affected, and note will be taken of the effect upon other wells during the continuance of this abnormal drain.

Those who have given attention to the tests so far made are practically convinced that there is more than a vast abundance of rock water in that field. If the heavy test to be made in a few days shows the results that may fairly be said to be indicated by the tests already made, then it may be set down as practically settled that plenty of good water may be taken from the deep wells in the north side field. One well that has been down over four years and never connected with the pumps has been pumpd by the compressed air system at a rate of approximately three-quarters of a million gallons per day. The engineers conducting the test express belief that the field is capable of supplying many millions more gallons of water each day than the city has any need for. They have the opportunity to make a demonstration of this sanguine belief.

So far the results of the test have been altogether in support of the opinion honestly and stubbornly held by many citizens for many years, that there is an inexhaustible abundance of rock water under this city. The trouble seems to have been not with the capacity of the source to furnish plenty of water, but with the means employed to obtain it. The solution of the whole question seems to be en route. It is not a question of vindicating anyone's prejudices on the one hand or anyone's opinions on the other hand. It is wholly and solely a question of getting all the pure water all the people want to use all the time. The people of the community as a whole are not specially interested in the particular method by which it is obtained. It will make little difference to them whether compressed air or compressed yeast is used to bring the water up, so that it is brought up and brought up abundantly. The present test is apparently showing not only that there is plenty of water beneath the city, but a good way to get it. However, final judgment must be suspended until the test is complete and results are definite and indisputable.

JUSTIFIABLE DECEIT.

Little Arts Practiced by Wives.

The way a Cincinnati woman cured her husband of the coffee habit by a little by-play is worthy of imitation in bad cases. He tells the tale himself: "For years I had been using coffee and finally I got like a morphine or opium fiend. I knew perfectly well that coffee robbed me of sleep, and I would lie awake hour after hour in the night, throwing away my life practically, for I needed the sleep to carry on my work.

"Common sense and my knowledge of the medicinal effects of caffeine (the active principle of coffee) told me plainly enough that I was ruining my life with every cupful, but to give coffee up was another question. I simply could not.

"About three months ago my wife brought home a sample of Postum Food Coffee, but I would not hear to it. She said I was stubborn and hard headed. No doubt I was, but I wasn't myself.

"She apparently gave up the effort to induce me to change, and I went on (as I supposed) with my coffee right along, five cups a day. About a month after that I noticed I was sleeping very much better at night, my nerves were fully fifty per cent. stronger. I drank just as much coffee as ever, and was delighted to think that it was not the coffee that was hurting me.

"Speaking to my wife about the change in my health, I told her that there must be something in my habits that had changed my health, for I was so much better, and I was glad to know that I could get better and still use coffee. She laughed heartily and said she might as well let the cat out of the bag. She said, 'I have been giving you Postum Food Coffee for a whole month and you have never known it.'

"The proof was so plain and the Postum Coffee so good that I was simply delighted with the whole affair, and of course freely forgave my wife for the justifiable deception. I am getting well as fast as a man could and am telling my friends about it. However, many of them, like myself, will not hear to any change, but stick to their coffee, and complain of headaches, indigestion, etc. A few of them have been induced to make the change from coffee to Postum Food Coffee, and I have never known a case where it has not worked a great advantage." J. B. Huttenmiller, 116 Race St., Cincinnati, Ohio.

Mr. and Mrs. James Cairns will return this evening from an extended western tour, covering a period of eight weeks.

FOR VICE ADMIRAL

SECRETARY OF NAVY MAKES RECOMMENDATION.

LONG'S ANNUAL REPORT IN

URGES REVIVAL OF SECOND RANK IN NAVY.

TELLS ABOUT ARMOR PLATE

REVIEW OF THE AFFAIRS OF THE DEPARTMENT.

Washington, D. C., Nov. 27.—John D. Long, secretary of the navy, has submitted his report to the president. Among the changes he urges is that the office of vice-admiral be revived. He devotes his attention first to the operations of the fleet in Asiatic waters. This fleet, he says, has co-operated with the army in the Philippines, transporting and conveying troops, patrolling a wide area of badly chartered waters, sending out landing parties and keeping the coast clear of the enemy. The small gunboats have been of great value in preventing the landing of arms for the insurgents and cutting off illicit trade with and among the islands. He calls attention to the good feeling existing between the navy and the army, the augmenting of the naval force in the east and the sending of Rear-Admiral Kempff with a squadron to Taku, China.

REVIEWS CHINESE CAMPAIGN.

The report reviews the work of the American marines in China as follows:

"The annals of history present few examples of more dramatic interest than the story of the beleaguered legations in Pekin, from June 20, 1900 the date on which the German minister was killed and the siege began, until August 14, when the allied forces entered the Chinese capital. Official and unofficial reports, and particularly the dispatches of our minister, show that the American marines bore their full share in the burdens of defense during this memorable siege. The United States legation was situated just outside of and near to the wall of the Tartar city. When the legations were assaulted, the American detachment immediately occupied a position on the city wall and, although repeatedly attacked by overwhelming numbers, and on two occasions driven for a few minutes from the wall, it was never permanently dislodged, but held this vital position until relief came.

"Some days before the siege began, and while railway communication with the Chinese capital was still open, arrangements had been made for the prompt dispatch, for the protection of the lives and property of Americans in the city, of another and larger attachment from our fleet at Taku.

URGED TO HASTEN TO PEKIN.

"On the night of June 9, Admiral Seymour of the British navy, the ranking naval officer, received a telegram from the British minister at Pekin, advising him that 'unless those at Pekin were relieved soon it would be too late.' At 9:30 the next morning a relief column, under command of Admiral Seymour, started for the Chinese capital by train. Finding at Langfong that the railway had been much damaged, so much so that it was rendered useless as a means of advance, this column after ten days' fighting in a difficult country, incumbered by wounded to the number of 250, and entirely cut off from communication, front and rear, was obliged June 20 to fall back and having on its return march captured the imperial armory near Hsiku, a few miles above Tientsin, there awaited reinforcements.

"In the meantime the foreign settlement in Tientsin itself was subjected to to attack, and communication between that city and Taku was interrupted. On the 19th of June a detachment of 8 officers and 125 enlisted men, chiefly from the 1st regiment of marines dispatched from Cavite by the Newark and Nashville, arrived at Taku. Instructions were immediately given that this force should take part in the forward movement for the relief of the besieged at Tientsin.

"The Chinese stronghold at Tien-Tsin was captured early on the morning of July 14; on the same day systematic attacks upon the beleaguered legations at Pekin ceased; an informal truce was arranged at the instance of the tsung-li-yamen; communication between the besieged and the outside world was partially reopened; the legations were offered certain supplies by the Chinese authorities, and although subjected to desultory attacks from time to time and to a fierce assault on the night of August 13, were on the following day relieved by the entrance into Pekin of the allied forces."

FAVORS A VICE ADMIRAL.

The report calls attention to the need of officers for sea duty and says that 5,000 men are necessary to man the vessels now under construction. It urges that office of vice admiral be revived.

The action of the treasury department in holding that naval officers serving in our island possessions are in our own territory and therefore entitled to only 85 per cent. of their "sea pay" is criticised, and the secretary urges that such officers be put upon the same footing as army officers.

AS TO ARMOR PLATE.

In reviewing the armor contracts the report says that after prolonged negotiations an agreement has been made for Krupp armor of the first-class for $400 a ton. This agreement was made with the Carnegie and Bethlehem companies, the Midvale Steel company having withdrawn its bid. Added to this $400 the government is liable to a Krupp royalty of not to exceed $24.32 a ton and of a Harvey royalty not to exceed $11.20 a ton.

The appropriations for the last fiscal year aggregated $85,398,247.30, exclusive of public works. The amount appropriated for 1901 is $65,130,916.67, and the estimates for 1902 are $87,172,630.76.

OCEAN ABYSS IN THE PACIFIC.

Regarding the survey for a trans-Pacific submarine telegraph cable between Honolulu and the Philippine islands, now completed, the report says:

Among the interesting discoveries made in the course of this survey was that of an ocean abyss, the deepest known, which was found to the eastward of the islands of the Ladrone group and near the parallel of Guam. Here were made the deepest ocean soundings ever recorded, the greatest depth reached being 5,360 fathoms, or sixty-six feet less than six statute miles."

The secretary urges the erection of a general hall of public records at Washington. It is recommended that the term of enlistment in the marine corps be shortened from five years to four. Legislation recommended is as follows:

"That naval courts martial and courts of inquiry be empowered to enforce attendance before them of civilian witnesses.

"That the use of depositions before naval courts martial and courts of inquiry be authorized."

NEW WARSHIPS ASKED FOR.

The secretary recommends that congress at its coming session be asked for two battleships, two armored cruisers, six light-draught gunboats and some small river craft. He urges a different system for rewarding officers for gallant service.

TRADES AND LABOR COUNCIL

SUSTAINS WAIST FACTORY EMPLOYES IN STRIKE.

Affidavits Against Sunday Business Laundry Workers to be Organized.

The Trades and Labor Council at its meeting last evening gave its hearty support to the cause of the Paragon Waist factory employes who are out upon a strike, and adopted a resolution for the appointment of a committee to investigate existing differences. The resolution of support was as follows:

"Resolved, That the Trades and Labor Council extend its heartfelt sympathy to the striking employes of the Paragon waist factory and pledges its hearty support in their battle for better wages and conditions."

The committee appointed to prosecute dealers in clothing, groceries and meats who keep open on Sundays reported that affidavits had been filed against three parties whose places of business were open last Sunday.

The organizing committee reported that an effort was now being made to organize the laundry workers.

The executive board reported that the accounts of the Labor Day committee had been audited and found correct.

A letter from Edgar Perkins, president of the Indiana Federation of Labor, indicates his willingness to deliver the address in Fort Wayne at the next Labor Day celebration, if it is the desire of the council that he do so.

Omega Oil

CORSET PAINS—A woman once said she liked to wear a corset because it was such a relief when she took it off. So long as Fashion makes women wear corsets, they will continue to squeeze their bodies into shapes never intended by Nature, and they will also continue to suffer. The pain and discomfort won't be so bad, however, if they will rub themselves every night with a little Omega Oil. This relaxes the squeezed-up flesh and muscles, takes out the soreness and has a wonderfully soothing effect. The woman who wants to get up in the morning feeling fine, ought to get some Omega Oil right away and use it.

Omega Oil is for sale in most drug stores. Any druggist can get a supply of his wholesaler. If your dealer does not keep it, the Omega Chemical Co., 257 Broadway, New York, will mail you a bottle, prepaid, if you will send 50c. in cash, money order or stamps.

A STRONG SERMON

PREACHED BY REV. GEIL AT THE RINK.

THE GRACE OF THE GOSPEL

ALL MAY LIVE IN THE ATMOSPHERE OF THE THRONE.

HOMELY LESSON OF THE HEN

A LARGE ATTENDANCE MARKED THE SERVICE.

The evangelistic meeting at Princess rink last evening was attended by a large crowd of people, and some time before the meeting commenced the big auditorium was well filled. Evangelist Geil preached an unusually fine sermon, taking as his text Matthew 23:37—"O, Jerusalem, Jerusalem, thou that killest the prophets and stonest them that are sent unto thee, how often would I have gathered thy children together and as a hen gathereth her chickens under her wings, and ye would not."

Evangelist Geil said in part:

"You will find my text in a hen coop this evening. Now some have said that this is a sensational subject to preach upon, given for the purpose of attracting a curious crowd. I say it is false. When Christ was preaching he did not unroll a scroll and use some passage as a peg upon which to hand his sermon. Christ once used to be a boy, a live, healthy boy, and I must say there is no better subject in the world upon which to preach.

"Now a hen has seven marked characteristics, and tonight we will knock off four of these and use the other three from which to draw the lesson. The hen has three distinct speeches; the first is the call of warning, the second to food for strength and beauty and the third the call to rest. To deliver these three calls to mankind, Christ came to earth. The little chicks are playing about and feeding, but the old hen, ever watchful for their safety, is watching the swaying grain which she well knows means that a serpent is wending its way toward her babes, she sounds the warning call, and they seek the place of safety under her wings. Jesus sees the warning shadow of the devil and warns us to seek a place of safety.

"Death is absolutely nothing. It is instantaneous. Life is a continued experience a thousand times more solemn than dying.

"My friend, if you are unsaved there surrounds you an unrecognized influence that will make it easy for others to do wrong. A certain friend of mine, a proprietor of a hardware store, employed a clerk, and after a time whenever he was near that clerk, he felt that there was something wrong. At last he had an expert accountant go over the books, and he found the clerk had been abstracting money from the safe, and was doctoring the accounts. There was that influence surrounding him that made his employer instinctively feel that something was wrong with the business. A man who leads a Christian life will be surrounded by an influence that will make itself felt by those about him. It will influence others to do what is right. I am not asking you to be saved because you are going to die; I ask you to accept Jesus Christ because you are going to live. No man who is unsaved knows true enjoyment. You may call 'painting the town red' a joy for the time being, but it is not. Joy is born of the Holy Ghost and if you have not received God you have not enjoyed a single moment of your life.

"I have no faith in those who make religion distasteful to the young by wearing a sanctimonious face and frowning down harmless pleasures. Have a good time, and underscore the good. The children rushed to Jesus. Did He wear a frown on His face? Never. About a Christian's life there is an atmosphere that is the same as about the throne of God.

"The second call of the hen is for food for strength and beauty. The Lord tells us to develop and beautify. Hear the warning call of Jesus and let that call arouse you, for when Christ speaks sharply, there is great danger at hand. If the chickens did not head the call to food, they may become food themselves.

"The third call of the hen gives us the most beautiful part of our lesson. It is the call to come and rest. Tired of play, the chicks obey that call, and settle under the wings of the mother hen for rest. The Lord's last call is to rest, a rest that passes your understanding. How sweet will it be when the angel of the Lord comes and whispers, 'The Master is coming,' and you will be ready to go with him. Every cyclone has a center so calm that a babe could sleep undisturbed within that circle, and yet outside the wind is rending trees and houses and dealing out death and destruction. Jesus is the peaceful center. You can find perfect peace and rest with him, while outside the world is agitated with the many adverse currents.

"My friends, has this sermon been sensational? You will say no. The hen has most certainly taught us a beautiful lesson, the warning call, the call to food for strength and beauty and the call to rest.

"Not many years ago a little lad lost his mother, a mother who had told him of Jesus, and what a friend He was in time of trouble. That boy's mother died, and after the funeral the lad came to his home and sat for a long time on the steps. Occasionally he would get up and look up and down the street. He was looking for Christ to come. After a while, as it was getting dark, he got up and went off down street toward the cemetery and climbing over the fence he went to the newly made grave of his mother. There he spent the night and in the morning was found by the superintendent, who asked him why he had stayed there. He said: 'I am waiting for Jesus to come.' The man was touched at the words and he said, 'Jesus has sent me to take care of you.' 'Then why have you been so long?' asked the boy. My friends, there may be a breaking heart in the city tonight that yearns for a word of comfort. Then why not be a true Christian and carry the comfort of Jesus to that aching heart?"

Rev. Geil closed his sermon with an eloquent appeal to those who had not yet accepted Christ to do so and to heed the warning call.

TODAY COMPLETES CENTURY

MRS. CATHERINE SKINNER IS 100 YEARS OLD.

Fort Wayne Lady Who Has Reached a Remarkable Age and Is Still Able to Enjoy Life.

Today Mrs. Catherine Cooper Hurin Skinner, who resides with her daughter, Mrs. Hattie T. Tolan, of 62 East DeWald street, celebrated the one hundredth anniversary of her birth. The cycle of a century is complete, and while greatly enfeebled by her extreme age, Mrs. Skinner still retains to a remarkable degree her vitality and her interest in the things of life. Many friends have called during the day to offer their congratulations to the venerable pioneer to whom it has been given to complete a century of life's activity.

Mrs. Skinner was born in Lebanon, Ohio, November 27, 1800, and was the first white child born in that settlement. Her father, Silas Hurin, had been one of the earliest settlers at Cincinnati, and her mother was a member of another prominent pioneer family, the Ludlows. December 16, 1816, Catherine Hurin, when 16 years of age, was wedded at Lebanon to Richard Skinner. Five of the ten children born to them are yet living—Mrs. Dr. Coleman, of Delphos, Ohio, now past 80 years of age; Mrs. Agnes Hunt, of Delphos; Mrs. S. E. Brown, of Denver, Col.; James H. Skinner, of Minneota, and Mrs. H. T. Tolan, of this city. Mrs. Skinner's grandchildren residing in the city are B. S. Tolan, architect of the Allen county court house; Frank C. Tolan, C. B. Tolan, Ivan Tolan, Thomas J. Tolan, jr., Mrs. William C. Vogel and Mrs. R. S. Patterson.

For many years Mrs. Skinner has been a devoted member of the Presbyterian church, and throughout her long life she has combined in a remarkable degree all the admirable attributes and graces of American womanhood. A woman of much intelligence, she has been an extensive reader, and has kept a close knowledge of passing events. She has lived under the administration of every president of the United States save that of Washington and the elder Adams, and her recollection goes back distinctly to days far antedating the recollection of ordinary man. She refers distinctly to the time of Henry Clay's visit to Lebanon, when his daughter was taken ill at the hotel there and died, and from the wealth of her recollection enjoys recounting dozens of anecdotes of days of the long ago.

Mrs. Skinner is, of course, quite feeble; her hearing is somewhat affected and the eyesight is partially dimmed, though until within a very few years she was able to read and to go about alone. She usually takes a brief nap during the afternoon and retires early in the evening to bed, where her slumber is undisturbed. Mrs. Skinner's husband has been dead twenty-five years, and about four years ago the venerable lady came to Fort Wayne to make her home with Mrs. Tolan.

HUNTINGTON LINE PROJECTORS CONFER WITH BOARD.

MAKE APPLICATION TODAY

LINE TO BE CALLED FORT WAYNE SOUTHWESTERN.

At a special meeting of the board of public works called for 4 o'clock this afternoon the Fort Wayne Southwestern Traction company will apply for a franchise granting an electric railroad a right-of-way into Fort Wayne.

This is the projected line which has been erroneously called the Oil Belt road, extending to Huntington and points beyond. This morning William S. Reed, of Townsend, Reed & Co., railroad builders of Council Bluffs, Ia., C. C. Miller, of this city, and Attorney N. D. Doughman held an extended conference with the board of public works and City Attorney Shambaugh discussing the conditions under which the line would be permitted to come into Fort Wayne.

The projectors of the line have already acquired an option upon the old canal bed between this city and Huntington, and gave notice last week of their intention to apply for a franchise entering the city by way of Lavinia avenue and Taylor street. Before submitting the application the gentlemen desired to know what conditions were likely to be favorably regarded by the board, and a number of points were taken up this morning.

It was practically agreed that the new company is to be granted rights similar to those already given to the Indiana and Ohio line with such variation as conditions demand. Attorney Doughman is busy preparing the application, and the franchise will provide that all rights cease unless the road is constructed and in operation between this city and Huntington by the first day of January, 1902. When any streets over which the tracks pass shall be ordered paved, the company shall pave between its rails and for a distance of one foot on the outer side of its tracks with the same material as is used on the balance of the street. When other lines shall desire to use the tracks of the company on any street the company or companies so entering shall pay to the company first building the line a rental of one-half the cost of construction and maintenance of the tracks. The compensation is the same as that exacted from other companies—the first five years to be free; $250 per year for the second five years, and $500 per year thereafter.

Mr. Reed stated that his company is very anxious to begin work upon the line immediately, and offered to enter into bond to do so as soon as the franchise is granted. He expressed his willingness to put a gang of men to work tomorrow if the preliminaries were completed.

ALL THE POMP OF ROYALTY

MARKED THE OBSEQUIES OF SIR ARTHUR SULLIVAN.

Funeral Services of the Dead Composer Take Place in Chapel Royal and St. Paul's.

London, Nov. 27.—With all the pomp and circumstance which might have attended the obsequies of a member of the royal family the remains of Sir Arthur S. Sullivan, who died here Thursday last, were interred in St. Paul's Cathedral today.

Long before the hour fixed for the first portion of the services, in the Chapel Royal, immense crowds assembled in the vicinity of the late residence of the deceased and St. James Palace, while every point of vantage around St. Paul's was taken up hours prior to the arrival of the cortege.

The immense crowds lining the route traversed by the procession testified to the widespread sympathy of the public, while both the Chapel Royal and St. Paul's were filled to their capacity with privileged ticket-holders.

The queen, Emperar William of Germany, the Prince of Wales and other royalties were represented, while the musical and dramatic world attended in large numbers.

The presence of Joseph H. Choate, the United States ambassador, and other diplomats and numerous Americans, including the Countess of Essex and Mrs. Rolands, testified to the international potion held by the dead composer. The coffin was imbedded in magnificent floral tributes sent from far and near in such numbers that they filled four hearses.

The clergy and the full choir of the Chapel Royal were attired in their historic robes of scarlet and gold, and the remains were borne up the aisle of the effectively-draped chapel behind the choir, chanting the plaintive, opening verses of the burial service.

The whole service was most impressive and the anthems were especially mournful. The audience displayed deep emotion as the strains of the anthem, "Yea, Though I Walk," from Sullivan's "Light of the World," resounded through the sacred edifice.

The preliminary service ended, the procession re-formed and proceeded to St. Paul's Cathedral along Pall Mall, the Thames embankment and Lugate Hill.

There a catafalque had been erected, on the edge of a narrow opening which led to the crypt. Around the opening this inscription was worked in flowers: "His sun has gone down while it was yet day."

After the mourners, who had come from the Chapel Royal, were seated, the dean commenced the service. Sir John Stainer led the choir in singing another selection from "The Light of the World."

Arch-deacon Sinclair read the latter part of the service, and then the coffin was lowered into the crypt, the silence being only broken by the sobbing of a few women.

The benediction was given by the dean and then occurred what has never before been heard in St. Paul's. Fifty women, all dressed in the deepest black, and the same number of men, gathered near the coffin, arose from their knees. They were the chorus of the Savoy theatre. In quavering, trembling tones they commenced to sing Sullivan's Brother, Thou Art Gone Before Us." A great hush fell on the crowds that had started to leave the building.

Gathering courage, the women's voices swelled out until every corner of the vast cathedral re-echoed this sad requiem from those who had so often sung the lighter lyrics of the composer they then mourned.

As this died away the organ took up the majestic strains of the dead march from "Saul," the choir, clergy and mourners filed out and one of the most impressive national funerals held in England came to an end.

The vault containing the remains of Sir Arthur Sullivan is situated in the extreme corner of the crypt, close to the tomb of Dr. Boyce, the famous writer of church music of the last century.

Near by lie the remains of Sir John Millais, the president of the Royal academy, who died in 1896.

The Marriage Problem

"How to be happy though married," has been entirely solved to the satisfaction of hundreds of thousands of women. There can be no happiness without health. The general health of woman is dependent on the local health of the delicate womanly organs. When there are debilitating drains, or inflammation, ulceration or female weakness, happiness in marriage is practically impossible. A host of happy wives testify that the secret of happiness in marriage is found in the use of Dr. Pierce's Favorite Prescription. It dries the drains, heals ulceration and inflammation and cures female weakness. It makes weak women strong, sick women well.

Mrs. Anna Willy, (Michigan House), Northville, Spink Co., S. Dak., writes: "I am enjoying good health, thanks to your kind advice and valuable remedies. I suffered very much with female weakness and other ailments for more than two years, when I wrote to you for advice. After carefully following your advice and taking six bottles each of Dr. Pierce's Favorite Prescription and 'Golden Medical Discovery' I am now a well and happy woman."

Women are invited to consult Dr. Pierce by letter, free. Correspondence private. Address Dr. R. V. Pierce, Buffalo, N. Y.

A JUDGE ACCUSES

ELKHART MAGISTRATES AFTER VIOLATORS OF LAW.

WAGES WAR ON SALOON MEN

SAYS GAMBLER OFFERED HIM BRIBE FOR PROTECTION.

PERU MYSTERY IS UNSOLVED

GENERAL NEWS OF THE STATE OF INDIANA.

Goshen, Ind., Nov. 27.—According to rumor irregularities in city affairs have been uncovered in Elkhart. City Judge Blake has filed three affidavits, two against W. H. Grapes and one against W. P. Erity, for alleged infractions of liquor laws Sunday. The cases are set for trial Tuesday morning and startling developments are expected at the trial. Judge Blake claims he inquired of Chief of Police Braden to learn if that officer was aware of the violations of the Nicholson law which, it is alleged, occur in Elkhart daily. Braden, it is said, admitted that he had heard of violations of the law and would act on the matter if Deputy Prosecutor Frank would instruct him. When consulted Frank manifested a willingness to prosecute the cases as soon as affidavits were filed. Braden, it is claimed, then said he would file affidavits as soon as he got ready. This, it is said, angered Judge Blake, who took the matter into his own hands. Blake says he was approached by gamblers a few days ago, who sought to bribe him, and since the police have refused to act in the matter he says he will remain quiet no longer. Sensational evidence is expected to come up when the cases are called for trial.

NO DEVELOPMENTS.

Peru, Ind., Nov. 27.—Yesterday's investigation by the coroner threw no light on the mystery surrounding the death of Patrick and Jerry Holland, whose bodies were found in their house here a few days ago. The belief is strongly held, however, that their death was due to narcotic poisoning, and that the poison was administered before they entered the house. The uncooked food on the table had only been partially unwrapped, preparatory for a meal. The idea of suicide gains no credence, as there was absolutely nothing in the lives of the brothers indicating that they would seek death. If they are the victims of foul play the coroner thinks that enmity, and not robbery, was the inciting cause.

Jerry Holland was sixty-two years old and his brother fifty-six. They had kept house together for many years, and they were broad-shouldered, hearty, rugged men, and had many friends. Patrick, while the lightest in purse, was the livelier of the two, while Jerry, more taciturn, but sociable, owned a number of houses, with ready cash in bank. Their one great fault was their love for strong drink. Recently both had been drinking to excess.

THE BIDDLE ESTATE SUIT.

Logansport, Ind., Nov. 27.—The plaintiff in the case of C. S. Peckham, administrator of the estate of Anna M. Biddle, against Eva Peter Reynolds and others, for possession of the property of the late Judge Horace P. Biddle, has been granted permission to inspect the late judge's famous home on Biddle island, so that the hearing may be commenced on Friday with a fair understanding on both sides. The library is the most valuable asset. The plaintiff is suing for the widow's third in the realty disposed of during Judge Biddle's lifetime. The defense maintains that he never owned real estate in his own name. It is said, however, that Biddle's island belonged to him, but was recorded in another man's name for fifty years, in order to prevent Mrs. Biddle from inheriting a third interest. Mrs. Biddle survived her husband only long enough to institute the suit. If the plaintiff wins, what remains of the estate will go to Mrs. Biddle's distant cousins.

BOTH ARMS AND LEGS OFF.

South Bend, Ind., Nov. 27.—Otto Robinson, a farmer, of Lakeville, fell under the cars and had both arms and legs cut off, causing death.

A CHILD WIFE DIVORCED.

Washington, Ind., Nov. 27.—Etta Hill, the child-wife of James Hill, of Edwardsport, has been granted a divorce. She is but 14 years old, diminutive in stature, and very girlish in appearance. Her ex-husband is 20. It was in evidence that Franklin Hill, father of James Hill, procured the license, representing that she was 17, and exhibiting what purported to be a letter written by Mrs. John W. Lawhead, mother of the girl, consenting to the marriage. Mrs. Lawhead denounced the letter as a forgery. 'Squire Ruby officiated at the wedding, two days after which the bride returned to her mother, saying she had been imposed upon.

AN UNUSUAL COMPACT.

Laporte, Ind., Nov. 27.—William and Charles Rosenbaum have been licensed to wed Josephine and Amelia Rosenbaum. There is no kinship ties between the contracting couples. The brothers first entered into a written compact to wed the two sisters bearing their last name, or remain single for life, and they began their courtship at the same time, the choice of sisters being determined by lot. They proposed and were accepted at the same time, and the marriage will be a double ceremony. They will live close neighbors.

A GOLDEN AND SILVER EVENT.

Wabash, Ind., Nov. 27.—Mr. and Mrs. Thomas Charles have celebrated their golden wedding at the home of their son-in-law and daughter, Mr. and Mrs. L. W. Fowler, who, at the same time, duly observed the twenty-fifth anniversary of their marriage. Mr. and Mrs. Charles are 72 and 69 years old, respectively. Both have spent fifty years in Wabash.

SHOT BY HIS DOG.

Delphi, Ind., Nov. 27.—While Edward Oles was hunting quail, accompanied by his favorite dog, he started to climb a fence, first carefully setting his gun at full cock, in position. His dog attempted to jump the fence at the same time, but tripped, and its toe struck the trigger, discharging the weapon. The dog lost a leg, and the owner had a thumb shot off.

ENGINEER FATALLY BURNED.

Elkhart, Ind., Nov. 27.—Samuel Long, a Lake Shore railway engineer, was fatally burned here yesterday. He came off his run and prepared to build a fire in his stove, and he poured gasoline over the wood, thinking it was kerosene. The explosion set fire to the building. Long's clothes caught fire, but he wrapped himself in a blanket. Chunks of flesh fell from his face and hands.

HE HAD SOME STOLEN GOODS

JAMES E. GAYLORD, A JUNK DEALER, IN TROUBLE.

Held to the Circuit Court in Bonds of $500—Four Juvenile Offenders.

In the mayor's court this morning James E. Gaylord was held to the circuit court under bonds of $500 to answer to the charge of receiving stolen goods. Gaylord has not yet been able to furnish the bond, and is still in jail.

Gaylord's arest by Detective Coling followed close upon the nabbing of four boys upon a charge of petit larceny. The lads were John Weber, William Reber, James Mulhaven and Frank Merz, and their ages range from 14 to 16 years. Two weeks ago some copper pipe was stolen from the Wabash railway, and the work of Detective Coling traced its disappearance to two young hoboes who were strangers in the city, and who have since skipped out. Mixed up in the affair, it is claimed, were the four lads named above, two of whom appear to have stood guard and the others to have sold it to Gaylord for junk, after cutting it into several pieces. Before it was mutilated the pipe was worth about $65 to the railroad company, and the lads received $2.48 from the junk dealer. Each of the boys were placed under bonds of $200, and Merz and Mulhaven were released upon their own recognizance to answer to the circuit court.

Gaylord who purchased the stuff from the boys, claims that he did not know it had been stolen. The officers are inclined to the opinion, however, that too many junk dealers lack scruples in this regard, and the fact that a ready market is found for plunder of this character is responsible for many of the thefts which are committed.

SIX FRIGHTFUL FAILURES.

Six terrible failures of six different doctors nearly sent Wm. H. Mullen, of Lockland, O., to an early grave. All said he had a fatal lung trouble and that he must soon die. But he was urged to try Dr. King's New Discovery for Consumption. After taking five bottles he was entirely cured. It is positively guaranteed to cure all diseases of Throat, Chest and Lungs, including Coughs, Colds, La Grippe, Pneumonia, Bronchitis, Asthma, Hay Fever, Croup, Whooping Cough. 50c and $1.00. Trial bottles free at Dreier Bros.' drug store.

NOVEMBER RECORD FOR CORN

THE CEREAL GOES TO 51 ON CHICAGO BOARD.

Phillips Both Bought and Sold a Small Quantity—Contract Receipts Short.

Chicago, Nov. 27.—November corn made a new price record on the board of trade before 11 o'clock today. It sold at 51 cents. November opened unchanged to ¾c higher at 49 to 49¾c. Phillips bought 5,000 bushels at 50c. A minute later he sold it at 51c, the high price of the present bulge. A reaction to 49½c followed, but the market rallied promptly to 50c and held steady. Two cargoes of corn of undeniably contract grade were delivered to Phillips in place of the two which the inspection committee rejected yesterday. Of today's receipts, 929 cars, 57 cars were graded contract. Contract corn stocks are now 1,151,000 bushels. Taking into consideration the assertion that Phillips has 3,000,000 bushels due him on November contracts and the failure to make the kiln-dried corn pass for contract grade, the potency of the figures given is obvious. December opened unchanged at 36⅝@36½c and sold to 36⅝@36¾c.

November corn closed 1 cent over yesterday at 50c. A drive was made at December by local longs and that option closed weak, ⅞@1⅛c lower, at 36c.

Wheat opened dull and weak on lower cables, but steadied in sympathy with corn. December opened ½c down at 70½c to 70⅝c and reacted to 70¾c. Local receipts were 182 cars, none of contract grade. Minneapolis and Duluth reported 594 cars, against 485 last week and 947 a year ago.

December later dropped on local selling to 70½c and closed easy, ⅜@½c down at 70⅛c.

Oats were dull but steady. December opened a shade higher at 21⅞c, touched 21⅝@21⅞c and rallied to 21⅞@22c. Receipts were 206 cars.

Provisions ruled fairly steady in spite of a heavy run of hogs. January pork opened 5c lower at $12.15, touched $12.05 and rallied to $12.20. January lard opened 5c down at $6.35 and January ribs 2½c lower at $6.32½.

THE CLOSE.

Prices at the close were as follows:

Wheat—Nov., 70¼@70⅜c; Dec., 70¼c; Jan., 71c.

Corn—Nov., 50c; Dec., 36c; Jan., 35@35⅛c; May, 36¾@36⅞c.

Oats—Nov., 21⅜c; Dec., 21⅞c; May, 24c.

Pork—Nov., $11.25, Jan., $12.20; May, $12.10.

Lard—Nov., $7.00; Dec., $6.97½; Jan., $6.87½; May, $6.92½@6.95.

Ribs—Nov., $7.62½; Jan., $6.32½@6.35; May, $6.37½.

Flax—Cash N. W., $1.60½; No. 1, from N. W., $1.65; No. 1, from S. W., $1.64½; Nov., $1.62½; Dec., $1.63; May, $1.62.

CHICAGO LIVE STOCK.

Chicago, Nov. 27.—Cattle—Receipts, 7,000; market generally about steady. Good to prime steers, $5.35@5.90; poor to medium, $4.25@5.25; stockers and feeders, $2.25@4.35; cows, $2.75@4.35; heifers, $3.75@4.75; canners, $2.00@2.75; bulls, $2.50@4.35; calves weak, lower, $3.50@5.00; Texas fed steers, $4.00@4.90; Texas grass steers, $3.30@4.15; Texas bulls, $2.50@3.30.

Hogs—Receipts today, 38,000; tomorrow, 40,000; left over, 4,000. Market averaged about 7½c lower, heavy, closing weak; top, $4.95. Mixed and butchers, $4.65@4.95, good to choice heavy, $4.70@4.95; rough heavy, $4.55@4.65; light, $4.75@4.95; bulk of sales, $4.80@4.90.

THE DAY ON WALL STREET.

New York, Nov. 27.—There were very heavy buying orders executed in different parts of the railroad list in the opening dealings, especially along the international stocks. The gains in this department ranged up to 1⅝ in Baltimore and Ohio. In the southern railways stocks the first transaction in the common was for 7,500 shares and for the preferred two blocks of 3,000 shares each were taken in quick succession, lifting the price 1⅜. Gains in a few other railroad stocks reached nearly a point and People's Gas was up 1¼.

The Steel and Copper stocks were heavy under the lead of Steel and Wire, which fell 1¾.

The upward movement of railroad stocks continued for only a brief time. The high opening invited realizing and prices yielded. Steady liquidation in Amalgamated Copper forced it down 2⅛ and the general depression in the Steel group affected the general list.

Pretty much all of the initial gains were wiped out and some of the Pacifics and the Grangers declined below yesterday's close. Prices moved upward again before 11 o'clock.

Trading was very irregular. Buoyancy in the Coalers was taken advantage of to realize in other quarters. Some of the medium and low-priced railroads were advanced, including the Denver and Rio Grandes, Kansas and Texas preferred, New York, Chicago and St. Louis second preferred and Kanawha and Michigan, the latter rising 3½. In New Jersey Central the gains reached 4 and the other Coalers were 1@2½ better. Weakness in Consolidated Gas, Rubber and Wisconsin Central preferred lowered them 1½ each. Southern Pacific moved upwards and Steel and Wire rallied 1¾, but the general market continued rather spotty.

Bonds improved, but the demand was not as large as on yesterday.

NEW YORK PRODUCE.

New York, Nov. 27.—Butter—Receipts, 6,700 pkgs; market steady; creamery, 18@26c; June creamery, 18@23c; factory, 12@16c.

Cheese—Receipts, 9,891 pkgs; market firm; large Sept., 10¾@11c; large late made, 10¾@11c; small Sept., 10¾@11⅛c; small late made, 10¾c.

Eggs—Receipts, 5,838 pkgs; market firm; western, regular packing, at mark, 20@23½c; western, loss off, 20c.

Sugar—Raw, steady; fair refining, 3½c; centrifugal, 96 test, 4⅜c; molasses sugar, 3⅜c; refined, quiet; crushed, $6.00; powdered, $5.70; granulated, $5.60.

Coffee—Market barely steady; No. 7 Rio, 7¼@7⅜c.

THE MONEY MARKET.

New York, Nov. 27.—Money on call nominally at 3@3½ per cent; prime mercantile paper, 4½@5 per cent; sterling exchange irregular with actual business in bankers' bills at $4.85¼@4.86⅛ for demand and at $4.81¼@4.81¾ for 60 days; posted rates, $4.82½ and $4.86½; commercial bills, $4.80¾@4.81¼; silver certificates, 64@65c; bar silver, 64½c; Mexican dollars, 50c.

Mrs. Costigan, of 147 Shawnee avenue, is lying very ill at her home and her children have been summoned to her side. Mrs. Shea, of Cincinnati, is already here and J. V. Costigan, of the same city, will probably arrive this evening. Mrs. Costigan was 87 years old last February. She has resided in this city many years.

Mrs. J. W. Sunderland entertained eleven ladies very much. Supper was served at 6 o'clock last evening in honor of her sister, Mrs. Charles Dondrick, of Kansas City, who leaves for her home tonight. There were about twenty-five people at the party, and all enjoyed the occasion.

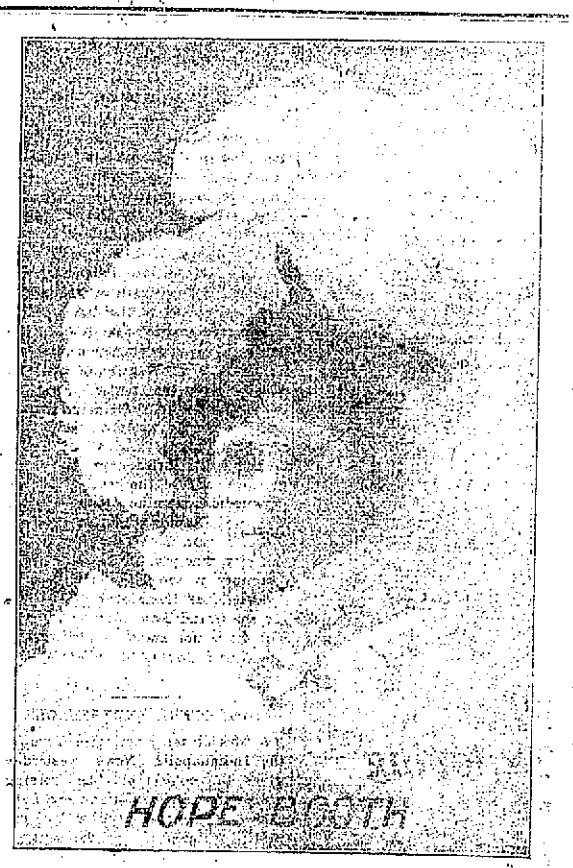
TAFT'S.



MISS HOPE BOOTH.

Miss Hope Booth, who creates the part of the heroine in the play "Men and Women," at the Masonic Temple theater tonight, has an international fame, both as an actress and a beautiful woman. The play is a frontier melo-drama without the usual exaggerated features and is said to be quite faithful as a portraiture of life on the plains in the heroic pioneer days.

EYE WAS REMOVED

JAMES PAULEY HURT WORSE THAN HE SUPPOSED.

GATHERING AGE STATISTICS

PENNSYLVANIA GETS READY TO PENSION OLD MEN.

INSPECTING THE TRACKS

REGULAR TRIP OVER PITTSBURG NOW IN PROGRESS.

It will be painful news to the many friends of James Pauley, the boilermaker, to learn that the accident to one of his eyes last Saturday has resulted in the loss of the optic. Mr. Pauley was injured worse than he would at first admit. He believed that the piece of steel which cut the eye had fallen out and so stated to the attending oculist. Instead it passed entirely through the eye ball and all the skill that could be brought to bear upon it failed to remove it. After it became apparent that the eye could not be saved and that to leave it would endanger the other, the optic was removed at 2 o'clock yesterday afternoon. Dr. Parks White, assisted by Dr. C. C. F. Neischang, performed the operation at the home of the unfortunate man, on West Williams street. The reader will probably remember that Mr. Pauley was struck in the eye by a piece of boiler metal which he was cutting with a chisel in the Pittsburg shops. The young man has the sympathy of the entire shop force.

GOT THE LAST MAN.

The Findlay, Fort Wayne and Western road bears the distinction of having none but brotherhood firemen in its employ. Last night A. G. Porter lodge, of this city, initiated Fireman C. S. David, who was the only fireman in the employ of the Findlay, who, up to last night was not "within the fold." The local lodge now has a membership of over 180 and the order was never in a better financial shape.

GETTING READY FOR PENSION.

Instructions were issued this morning that each employe in the Pennsylvania shops should write on the back of his service card today the date of his birth. The object for gathering the age statistics are not given upon the notices which were posted on the bulletin boards, but it is understood to be in connection with the pension system which goes into effect on the Pennsylvania lines January 1. So far as can be learned at present there are about twenty-eight shopmen on the western division of the Fort Wayne road who are eligible for pension and possibly an equal number in the transportaion and other departments.

GRAND RAPIDS RELIEF.

As previously stated in The Sentinel, the Grand Rapids and Indiana employes are to be given an opportunity to participate in the benefits to be derived from the Pennsylvania Voluntary relief association, dating from January 1, 1901. The road will be divided into four districts. That part lying south of Ridgeville will be attached to the district covered by the medical examiner on the Panhandle who is stationed at Richmond; Dr. E. F. Wagner, of this city will be given that portion lying between Ridgeville and Kalamazoo, in addition to the western division of the Fort Wayne, over which he already has jurisdiction, and the northern end of the road will have two medical examiners, one stationed at Grand Rapids and the other at Cadillac. Dr. F. W. Brown, late of this city, who was recently appointed examiner of the Toledo division, is spoken of as the probable examiner for the Grand Rapids district. However, it is not known who will take the Grand Rapids and Cadillac positions.

FRIGHTFUL EXPERIENCE.

A special telegram from Peru to the Indianapolis News yesterday gives the details of the crossing wreck on the Wabash and the Lake Erie and Western road which was briefly referred to by The Sentinel yesterday. The telegram reads as follows: "The limited fast mail, westbound, on the Wabash railway, due in Peru at 8:30 in the morning, had a remarkably narrow escape from fatal wrecking at the Lake Erie and Western crossing. The limited mail was one hour late, and Engineer Mart Jamison was smashing the record on a straight track. A Lake Erie and Western freight train had right of way over the Wabash crossing. The air failed to work and the limited mail struck the freight in the middle, the engine plowing through a heavily loaded box car and yet holding the rails. Two other freight cars were also broken. The engine was stripped of its pilot, stack and cab. The fireman jumped, but the engineer remained at his post. The train was running forty miles an hour. The passengers were badly shaken up, but no one was injured."

GOES TO COLORADO.

Harry F. Brill, for many years a conductor on the Pittsbug road and for the past year general yardmaster for the company at this point, will go to Colorado to take a position as passenger conductor on the Denver and Rio Grande road. Mr. Brill is a fine fellow and his friends in railway and other circles will be sorry to learn that he is going to move from the city.

THREE MEN HURT.

There were three accidents at the Wabash shops this morning, the victims being Fred Stahl, an apprentice, William Knoll, a machinist, and William Tagtmeyer, a machinist. Mr. Stahl had the second and third fingers of his right hand painfully bruised by a driver box falling upon them. Mr. Tagtmeyer cut his left hand with a pocketknife while doing some work. The blade laid open the flesh for an inch or more and the wound bled profusely. Dr. M. F. Porter was called to dress the wound. Mr. Knoll's injuries are not serious, consisting of a bruised thumb and a cut index finger. He was coupling up an engine in the round house when the fingers were caught between the drawbars.

TRACK INSPECTION AGAIN.

Supt. C. M. Bennett, of the Cincinnati and Muskingum Valley road, is this week making his monthly track inspection of the Fort Wayne road. He left Chicago on his specially equipped train at 1 o'clock this afternoon and will arrive here at 5 o'clock. He will remain over night and in the morning make a trip over the line between this city and Crestline. At every depression or rough place on the track, the track indicator car leaves a whitewash mark and the section men are expected to immediately correct the defect in track.

TESTING ACETYLENE LIGHTS.

The experiments with gas and electricity for lighting purposes on its trains, which have been going on on the Pittsburg for several months, are about to be extended so as to take in acetylene gas. A car is today being equipped for this kind of light and will soon be running between this city and Chicago, alternating with the cars equipped with oil and electricity. The interest taken in the experiments is general, as it will decide a much disputed question: The best all purpose light for passenger trains.

VANDERBILTS BUY RAILROAD.

Detroit, Mich., Nov. 27.—A Journal special from Marshall, Mich., says: "The Vanderbilts have come into possession of the Cincinnati-Northern railway, which runs from Allegan to Toledo and from Jackson to Cincinnati.

"This information was announced here today, F. W. Whiteside having been elected president of the Cincinnati-Northern to succeed General S. Thomas. Mr. Whiteridge is director of the Lake Erie and Western, which is also a Vanderbilt line. Vice-president J. H. Seaman, of the Cincinnati Northern, conducted the negotiations leading up to the sale. Several millions of dollars will be expended on the road, and the proposed extension from Allegan to Lake Michigan, and car ferries to Milwaukee will be built. Headquarters will undoubtedly be removed to Cleveland."

F. H. Gallivan, Nickel Plate brakeman, who was sick two months at the home of his parents in Montpelier, has returned to the city and reported for work on the road.

W. Fetters, Hugh Welch, I. Bett, J. C. Chamberlain, Casper Lehmkuler, William Dryer and William Rohyans Pittsburg shopmen, are new names on the sick list today.

Conductors Peterson and J. W. Herring and Brakeman W. E. Williamson and Switchman Guthrie, of the Pennsylvania, have reported for work after short vacations.

Representatives of western roads report that traffic is rather on the increase than diminishing. The merchandise movement west bound is much above the average for November.

Robert M. Charles, of the engineering department of the Pennsylvania's Richmond division, has been appointed assistant engineer of maintenance by way of the Cleveland-Pittsburg division.

Fostoria, O., has become an important point on the Lake Erie and Western and the company is enlarging its yards at that point and making other improvements necessary to handle the increased business.

Nickel Plate engine 0, with Engineer T. Whalen and Fireman Joseph Scheidle in the cab, is again in freight service on the Third district. This engine has just received general repairs at the Stony Island shops.

Contractor H. W. Tapp, who is building the immense arch bridge across Eel river at Columbia City for the Pennsylvania company, is experiencing much trouble with high water and the masonry is being delayed.

C. Charles, who quit a position on the Nickel Plate to take a similar one on the Lake Erie and Western, has returned to the former road. He has been assigned to a local freight train between Knox and Stony Island.

H. H. Marley, Southwestern passenger agent of the Michigan Central, who, when on a trip to New Mexico, was suddenly taken ill and serious results were feared, has recovered and returned to his headquarters.

Dr. F. W. Brown, who becomes medical examiner of the Toledo division of the Pennsylvania lines next Saturday, was here today, bidding friends good-bye. He has been visiting his old home, Logansport, for two weeks.

Brakeman B. A. Bent, for two years on the Nickel Plate local freight running between Stony Island and Knox, Ind., has been transferred to through freight and is now a member of Conductor Kitselman's crew.

At a recent meeting of the general baggage agents a new set of rules was adopted governing the handling of baggage cars in connection with small parties, more especially theatrical business. The new rule says that when a company makes two stops on a certain line the minimum charge shall be $25, or $12.50 for each stop, but if the company makes three or more stops the minimum charge will be $10 for each stop. Nothing was said at the meeting about the abolition of brass checks for baggage, the wisdom of a change to card checks being questioned by some of the older of the baggage agents.

The condition of the venerable blacksmith, Joseph Carry, of the Pittsburg shops, is such as to cause grave uneasiness in the minds of his family. Mr. Carry has been unconscious for several days and all visitors are denied admission to his room.

Chairman Goddard, of the trunk line executive committee, will appoint a committee to confer with one representing Western roads on the proposed restriction of the interchange passes to employes, requiring employes to pay a rate of 1 cent per mile.

General Superintendent Blodgett, of the Lake Shore and Lake Erie and Western lines, spent the latter part of last week inspecting the Lake Erie and Western, visiting Michigan City among other places, to look after contemplated improvements at that point.

Engine 172, which was hauling Nickel Plate train No. 2, had a slight mishap at South Whitley yesterday and had to complete the trip to this city with only one cylinder in operation. The train was a half hour late in reaching the city in consequence of the accident.

Travel is uncommonly heavy this week, due, no doubt, to the holiday. All the trains through the city yesterday were well filled with passengers. The Nickel Plate ran its eastbound train in two sections, the second train having a party of over 300 bound for New York.

Both the Chicago, Indiana and Eastern and the Cincinnati, Richmond and Muncie are asking subsidies from Marion, Ind., to extend their lines through that place, and it has been suggested that both votes be taken on the same day, but one of the companies opposes this plan.

Indianapolis Journal: "The Wabash Railway company losing in the famous Eel River road case insures Fort Wayne getting another line through the building of the Fort Wayne and Butler road. Fort Wayne territory is too valuable to the Wabash for that company to abandon it."

Engine 1,354, from the Buffalo division, and engine 775, from the second division, of the Wabash, came here yesterday and were taken into the shops for general repairs. Engine 60, which has just been turned out of the shops, was sent to the Detroit division this morning to be placed in service.

Engineer M. Stafford is sick and Engineers William Gates and C. Sweeny are off duty by permission. Engineers Samuel P. Speece, J. E. Long, W. H. Shelvey, P. E. Malone and Max Horning, and Firemen D. S. Peterson and A. Siegrist, who had been off duty for various reasons, reported for duty on the Pittsburg this morning.

The roads in Central Traffic association territory are employing a good many new men for the winter season. Employes on the trains must not be over thirty years of age. Their eyes are tested as to color blindness, and in employing firemen a certain weight and height is required.

It is stated that as a result of the tour of inspection made by the Pennsylvania directors recently over the Chesapeake and Ohio road and the Norfolk and Western $10,000,000 to $12,000,000 will be expended in building short branches and developing the coal properties of the two companies in West Virginia.

YOU NEVER SAW SUCH BRILLIANT CUT GLASS.....

As that We Show in Our Beautiful Art Room.

It is all in the newest cuttings and you will find our prices one-third less than you have been in the habit of paying. When bought for wedding presents we always give our customers the privilege of exchanging the piece bought, if it happens to be desirable to do so because the recipient gets too many pieces of a similar kind.

Our cut glass department is by far the largest in the city.

Axminster Rugs for Christmas Presents.

In mat size, $1; in five-foot rugs, $2.50; in six-foot sofa rugs, $3.50.

These prices are for only a few days. Nothing makes a more acceptable Wedding or Holiday present. The designs are all new and most beautiful. Every house needs rugs and a half dozen of them would find appropriate places.

Beautiful Parlor Suits or Handsome Single Pieces.

Perfectly Satisfied

Is the verdict of all our customers who purchased goods from our new stock last season, and we want to call your attention again to the fact that we have the only absolutely new stock of Men's, Boys' and Children's Winter Clothing in the city. This is our first winter season and you will find no old style or "carried over" stock in our immense assortment.

We give our personal attention to every detail of our business and are confident that we can

SAVE YOU 15 PER CENT.

On any purchase you may make. Overcoats in all new styles and shades. Men's Business and Dress Suits. Our stock of Boys' Suits, Reefers and Top Coats is the largest in the city and parents are always delighted with the style, the material, the making and the prices. Our line of Furnishings and Hats and Caps is complete, both in staples and novelties, and every article up-to-date.

There is no argument half as convincing as the evidence of your eyes; therefore call and you will see that our statements are true and that you can effect a saving of 15 per cent on your clothing.

Quality, Quality, Quality.

You can't keep it constantly in mind, for it's the all important thing in tailoring. There must be quality in the goods and they cost more than cheap stuffs. Must be quality in the workmanship—and skilled artist-workmen command far higher wages than sweat-shop irresponsibles. And yet Mautner's tailoring costs not a penny more than all this extra goodness warrants.

GEORGE W. WILSON IS DEAD

WAS CHIEF OF THE INTERNAL REVENUE BUREAU.

Had Long Been in the Government Service—An Authority on Revenue Matters.

Washington, Nov. 27.—George W. Wilson, commissioner of internal revenue, died this forenoon in his apartments at the Riggs House, of Bright's disease, complicated with asthma.

He had ben dangerously ill for several days past. There were with him at the time of his death Mrs. William Wilson, his daughter, Mrs. Hardonner and several of his associates of the treasury department.

The funeral will be held at Hamilton, Ohio, on Thanksgiving day. The party, including Mrs. Wilson, Mrs. Hardonner and Chief Deputy Williams, will leave here tomorrow over the Cheaspeake and Ohio at 2 p. m., via Cincinnati to Hamilton, where the interment will take place.

George Washington Wilson was 57 years of age and a native of Ohio. He entered the Union army when 18 years old as a private in the 54th Ohio volunteer infantry, and served throughout the war coming out a first lieutenant. In 1866 he took up the practice of law and in 1869 entered the internal revenue bureau.

He served in various capacities, rising from one important position to another until he became the head of the bureau.

Commissioner Wilson was regarded as the most thoroughly informed man on internal revenue subjects who ever entered the government's service and was consulted on all measures affecting the revenues that have been before congress for many years.

"It's a good thing LAVEY'S have."

Have You A House To Heat?

If you have, then you will want a a NEW ERA RADIATOR, when you know the plain simple facts about it.
These are the plain, simple facts:
An immense proportion of the heat made by the fuel we burn passes out of the chimney instead of heating our rooms. "Hotter on top of the chimney than down by the stove;" yes a good deal.
The New Era Radiator is a device affixed to a stove pipe or furnace pipe to keep the heat from going up the chimney. It does it.
Your coal and gas bills are nearly twice as large as they would be if you used this waste heat. Don't waste it; stop it before it reaches the chimney with a NEW ERA RADIATOR.
Price, $4.50 and $5.50.

BOTH PHONES 149 LAVEY'S UP-TO-DATE HARDWARE STORE 19 and 21 W. MAIN ST.
